Subject: A1 in Northumberland Morpeth to Ellingham

Morning George,

you will recall that following my submission to the inspectorate it was agreed that a meeting to discuss my concerns would be undertaken.

That meeting was subsequently undertaken, and minutes produced.

There were action points to be followed up from those minutes, which are still outstanding.

I have contacted Costain's who have agreed to chase this up, however until these points are actioned, I am not able to comment further on the proposals.

Likewise, I have not seen the minutes on the document register for the project hence my concerns are not recorded, and my views could go unheard.

Can I ask that this is resolved and brought to the attention of the inspector?

Best Regards

Colin Moor
