LETTER FROM NORTHUMBRIAN WATER

1 INTRODUCTION

1.1 PURPOSE OF THIS DOCUMENT

- 1.1.1 This Statement of Commonality for Statements of Common Ground (this 'Statement') relates to an application made by Highways England (the 'Applicant') on 7 July 2020 to the Secretary of State for Transport via the Planning Inspectorate (the 'Inspectorate') under section 37 of the Planning Act 2008 (the '2008 Act') for a Development Consent Order (DCO). If made, the DCO would grant consent for A1 in Northumberland, Morpeth to Ellingham (the 'Scheme'). The application was accepted for examination by the Inspectorate on 4 August 2020.
- 1.1.2 The Scheme is formed of two parts as follows: A1 Morpeth to Felton (Part A) and A1 Alnwick to Ellingham (Part B). A detailed description of the Scheme can be found in Chapter 2: The Scheme of the Environmental Statement (ES) [APP-037].
- 1.1.3 This Statement has been prepared to provide the Examining Authority (ExA) with the current position on Statements of Common Ground (SoCG) between the Applicant and prescribed consultees, statutory undertakers and interested parties ('other parties') in relation to the Scheme.
- 1.1.4 This Statement has been updated to reflect the further engagement that has taken place with Northumberland County Council, Natural England and the Environment Agency (EA) since Deadline 8a. It sets out the position on the commonality of specific SoCGs at Deadline 9.

2 STRUCTURE OF STATEMENTS OF COMMON GROUND

- 2.1.1 To ensure consistency in the approach taken to documenting matters agreed, matters subject to further negotiation or matters not agreed, each of the SoCG adopted a standard format in order to provide clarity to other parties and ultimately the ExA.
- 2.1.2 Each SoCG has the following structure:
- a.** Section 1: introduces the SoCG and a description of its purpose;
 - b.** Section 2: states the engagement that has occurred between the Applicant and other Party; and
 - c.** Section 3: sets out any issues that have arisen, reporting on the status of each issue, i.e. whether it is agreed, still under discussion or not agreed, and any remaining actions.

3 LIST OF STATEMENTS OF COMMON GROUND

- 3.1.1 The Applicant has prepared SoCGs with a number of other parties that it considers beneficial to do so with during the preparation of the DCO application. These comprise:
- a.** Northumberland County Council (as the local authority for the area in which the Scheme is located);
 - b.** Natural England;
 - c.** The Environment Agency; and
 - d.** Historic England.
- 3.1.2 In the Rule 6 letter dated 19th November 2020, the ExA requested that the Applicant enter into SoCG in relation to the effect of the Scheme on trees and woodlands, including ancient woodland, and the proposed mitigation measures in respect of trees and woodlands with the following bodies:
- a.** Forestry Commission; and
 - b.** The Woodland Trust.
- 3.1.3 The Woodland Trust confirmed by an email dated 12/01/20 that: 'the Trust is unable to participate in any Statement of Common Ground agreements for road schemes. As we are currently considering both our internal and external position on involvement with transport schemes, we have put in place a moratorium on partaking in any such agreements.' As such, the Applicant has not progressed a draft SoCG with the Woodland Trust. Discussions with the Woodland Trust are however still ongoing.
- 3.1.4 The ExA also requested that the applicant enter into SoCGs with affected statutory undertakers, in relation to protective provisions.
- 3.1.5 The affected statutory undertakers are set out in Appendices CA.2 [REP1-038] and CA.3 [REP1-039] of the Applicant's Response to ExA's First Written Questions [REP1-032], submitted at Deadline 1. These appendices identify the extent to which each statutory undertaker would be affected, whether a relevant representation has been submitted and the extent of discussions (if any) with the Applicant as to protective provisions.
- 3.1.6 The Applicant has reviewed the statutory undertakers listed in appendices CA.2 [REP1-038] and CA.3 [REP1-039] to identify those statutory undertakers which have submitted a relevant representation or otherwise requested that the Applicant engage in discussions in relation to protective provisions. Through this process, the Applicant identified the below affected statutory undertakers. Draft SoCGs have been prepared for each of these statutory undertakers:
- a.** National Grid Gas;
 - b.** Northern Powergrid;
 - c.** Northern Gas Networks; and
 - d.** Northumbrian Water.
- 3.1.7 There are no other statutory undertakers that have submitted relevant representations or otherwise requested that the Applicant engage in discussions in relation to protective

provisions. As such it is not proposed at this stage to enter into any further SoCGs with additional statutory undertakers.

- 3.1.8 The parties which the Applicant has prepared SoCG with are therefore listed in Table 3.1 below.

Table 3-1 - List of SoCGs

Stakeholder
Local Authorities
Northumberland County Council
Prescribed Consultees
Historic England
Environment Agency
Natural England
Forestry Commission

National Grid Gas
Northumbrian Water
Northern Powergrid
Northern Gas Networks

- 3.1.9 Further detail about the current position of each SoCG can be found at Chapter 4, Table 4.1 of this Statement.

4 SUMMARY OF CURRENT POSITION

- 4.1.1 This section provides the position of each SoCG at Deadline 9, Tuesday 15th June 2021. As final versions of the SoCGs are agreed as the DCO Examination progresses, they will be submitted alongside this Statement.
- 4.1.2 Table 4.1 below provides a high level position and where necessary includes further detail to aid understanding of the ExA. The high level positions used in the table are:
- a.** Final Signed SoCG all matters agreed – The final SoCG has been signed by both parties and all matters are agreed.
 - b.** Final Signed SoCG with matters outstanding – The final SoCG has been signed by both parties, and there remain matters outstanding that the Applicant and the other party agree will not be resolved during the Examination.
 - c.** SoCG in draft – The SoCG has been drafted by the Applicant, it has been shared with the other party and comments have been provided. Discussion is ongoing to reach a 'Final Signed SoCG all matters agreed' or 'Final Signed SoCG with matters outstanding'.

5 CURRENT POSITION

- 5.1.1 This section of the Statement provides a summary of principal issues covered in the SoCG and demonstrates where there is commonality in the topics or matters. The table is presented in such a way to show topics covered within the various SoCG and how these are relevant to each other party and a position for each topic as follows:

	Matter agreed
	Matter subject to further discussion
	Matter not agreed

- 5.1.2 Where a matter is not relevant to the other party, it is not included within the SoCG and therefore not covered in Table 5.1 and shown as a blank.
- 5.1.3 Updated versions of the SoCGs with Northumberland County Council, Natural England and the EA are submitted at Deadline 9.

6 POSITION AT DEADLINE 9

- 6.1.1 This section provides a summary of the position between the Applicant and each party at Deadline 9. This section provides the ExA with a summary. The individual SoCGs should be referred to for the full detail on specific matters.

NORTHUMBERLAND COUNTY COUNCIL

- 6.1.2 Substantive progress has been made in a number of areas, and, subject to the topics listed at 6.1.3 and 6.14 below, the Applicant considers that the following topics are now substantially 'agreed':

- a.** Air Quality and emissions (except matters pertaining to Biodiversity, as detailed in paragraph 6.1.4);
- b.** Biodiversity, ecology and nature conservation (except matters pertaining to Air Quality, as detailed in paragraph 6.1.4)
- c.** Economic and social effects;
- d.** Historic Environment;
- e.** Landscape and visual effects;
- f.** Noise and vibration;
- g.** Green Belt Considerations;
- h.** Effects on heritage assets;
- i.** Water Framework Directive compliance;
- j.** Scheme design, particularly in relation the maintenance boundaries;
- k.** Environmental permits;
- l.** Water Environment Effects; and
- m.** Drainage and Flooding.

- 6.1.3 At Deadline 9, there are still a number of issues which are 'subject to on-going discussion', as set out below:

- a.** Development Consent Order;
- b.** Biodiversity and Air Quality (restricted to negotiations regarding the legal agreement to secure proposed habitat improvements as compensation for impacts from air quality);
- c.** Traffic and transportation; and
- d.** Outline Construction Environment Management Plan.

- 6.1.4 At a meeting on Tuesday 8th June NCC and the Applicant discussed NCC's proposed re-wording of Schedule 1 and 3 of the draft DCO. The amendments proposed by NCC are intended to require the provision of enhanced Public Rights of Way as part of the Scheme. The alternate wording proposed by NCC is included in their Deadline 8 submission [REP8-028b]. The Applicant maintains that the requested changes are not required as mitigation for the impacts of the Scheme and that some of the proposed changes are not deliverable within the constraints of the Order Limits. This is not a matter on which it is thought an agreement is likely to be reached, so it is for the Examining Authority to make a recommendation on this matter.

- 6.1.5 Other than this, the provisions of the draft DCO [REP8-005] is now broadly agreed, albeit that the wording of Requirement 17 is still “under discussion”. This is recorded in the updated SoCG submitted at Deadline 9.

HISTORIC ENGLAND

- 6.1.6 There are at present no principal matters outstanding between Historic England and the Applicant.
- 6.1.7 The Applicant received an email from Historic England asking that the SoCG be revised to provide further clarity on several issues. The SoCG was updated at Deadline 6 to reflect these comments.
- 6.1.8 At Deadline 9 the Applicant considers that the draft Historic England SoCG submitted at Deadline 8 [REP8-019] is now “agreed” and have submitted the revised document to Historic England for formal agreement. The Position Statement submitted by Historic England at Deadline 8 [REP8-030] confirms that the Statement of Common Ground: *‘is still progressing, and we hope will be able to conclude agreement shortly.’*

ENVIRONMENT AGENCY

- 6.1.9 There have been a number of meetings between the Applicant and the Environment Agency (EA) the most recent of which took place the 18th, 19th and 20th May 2021 at which measures to mitigate the impact of the Scheme on Otters were discussed and agreed, and revisions to the Outline CEMP [REP7-008] discussed. Further meetings have been held on a without prejudice basis, the most recent on the 11th June 2021 to agree the compensation approach for the offsite mitigation measures, which will be delivered by the Environment Agency. As the Environment Agency agrees that the Applicant has done all it reasonably can to address impacts within the Order limits but still maintains that additional compensation is required and proposed that this is addressed by the Applicant making a financial contribution towards a project identified on the Environment Agency’s Water Environment Investment Fund ~(WEIF), Notwithstanding that the Applicant is of the view that their mitigation proposals are satisfactory, the Applicant is prepared to make a contribution towards offsite works as requested by the Environment Agency. The terms of a Legal Agreement to secure this contribution to have now been agreed by the parties and it should be signed shortly .
- 6.1.10 As at Deadline 8, the primary areas of discussion are over the Culvert Mitigation Strategy [REP1-066]. The EA considers that additional mitigation / compensation / offsetting is required for the impacts on the watercourses caused by the Scheme. The Applicant is of the view that the impacts of culverting are relatively minor and localised and do not need to be compensated for, especially as the Applicant considers that the Scheme will not cause a deterioration in the overall waterbody status for any waterbody, nor will it prevent them from achieving their WFD objectives. . However, notwithstanding that the Applicant is of the view that their mitigation proposals are satisfactory, the Applicant is prepared to make a contribution towards offsite works as requested by the Environment Agency. [The terms of a Legal Agreement to secure this contribution to have now been agreed by the parties and it should be signed shortly. The details of the contribution and associated offsite works are currently under discussion with the Environment Agency.

- 6.1.11 The Environment Agency also consider that the proposed activities outlined in 6.38 Environmental Statement Addendum: Stabilisation Works for Change Request [REP4-063] and 6.40 Environmental Statement Addendum: Southern Access Works for Change Request [REP4-064] are a significant variation to the original proposals. The Environment Agency do not agree with the suggestion in 6.44 Water Framework Directive Addendum for Change Request [REP4-068] that rock armour will provide adequate and suitable mitigation for the loss of 62m of riparian marginal habitat. All these matters are currently 'under discussion'. The parties are now agreed that compensation is required for loss of Habitat of Principal Importance (HoPI) and habitat of a SSSI and that there are no suitable sites for providing compensation in the vicinity of the bridge. The Applicant is prepared to make a contribution towards offsite works as requested by the Environment Agency. The terms of a Legal Agreement to secure this contribution to have now been agreed by the parties and it should be signed shortly. The details of the contribution and associated offsite works are currently under discussion with the Environment Agency
- 6.1.12 The Environment Agency has highlighted that the Scheme would result in a net loss of 11.69% of watercourse and a gain of 7.21% of area-based units and a failure of 4 out of 10 Net Gain Principles. As such the Environment Agency encourages the Applicant to examine opportunities to compensate for this loss with equivalent river-based units. The Applicant remains of the view that Biodiversity no net loss or net gain is not a legal requirement under current planning law for Nationally Significant Infrastructure Projects (NSIPs) (such as the Scheme) and is also currently not mandatory at a local policy level. As explained above, notwithstanding the Applicant's position, the terms of a Legal Agreement to secure a contribution to off-site compensation have now been agreed by the parties and it should be signed shortly. This agreement will resolve the remaining matters between the parties. The following Scheme wide documents are now all 'agreed':
- e. Flood Risk Addendum - Rev 0 [REP1-067];
 - f. Environmental Impact Assessment - Flood Risk Outside Order Limits [REP3-007];
 - and
 - g. Environmental Impact Assessment - Surface Water Outfall Strategy [REP3-011].
- 6.1.13 As set out above, the Applicant will arrange further meetings with the EA to progress these issues.

NATURAL ENGLAND

- 6.1.14 The position of Natural England at Deadline 9 is currently Under Discussion, although there are broad areas of common ground for Part A and Part B. Outstanding matters that remain "*under discussion*" relate to the recent change request and funding for compensatory habitat improvements associated with air quality impacts. 6.1.14 The Applicant has agreed Letters of No Impediment (LoNI) for all the species that the Scheme will have an impact on.

FORESTRY COMMISSION

- 6.1.16 The position of the Forestry Commission at Deadline 9 is currently Under Discussion.
- 6.1.17 A meeting was held with the Forestry Commission 8 March 2021 and comments on the draft SoCG submitted at Deadline 4 [REP4-020] have now been received by the Applicant from the Forestry Commission. As such the submitted SoCG has been revised to address

these comments. The Applicant emailed 26th May 2021 and again on Wednesday 2nd June 2021 to request a further meeting between the Applicant and the Forestry Commission. A meeting will be set up between the Applicant and the Forestry Commission ahead of Deadline 10. .

NATIONAL GRID GAS

6.1.18 Work on this SoCG and discussions as to protective provisions are ongoing.

NORTHUMBRIAN WATER

6.1.19 Work on this SoCG and discussions as to protective provisions are ongoing.

6.1.20 Northumbrian Water's legal team requested that the letter appended to this Statement of Commonality be submitted to the Examination. This confirms that discussions are ongoing.

NORTHERN POWERGRID

6.1.21 Work on this SoCG and discussions as to protective provisions are ongoing.

NORTHERN GAS NETWORKS

6.1.22 Work on this SoCG and discussions as to protective provisions are ongoing.

Dear Sirs

Statement of Common Ground with Northumbrian Water Limited

We act for Northumbrian Water Limited in relation to the above. While we have agreed with the Applicant's legal representatives not to submit a draft Statement of Common Ground at Deadline 8, we can confirm that discussions are ongoing in order to address the matters set out at Table 3-1 of the draft Statement of Common Ground [REP5-019].

Yours faithfully
