

Who are Northern Gas Networks?

We look after the 37,000km of gas mains in your area. We don't own the gas but it's our job to transport it safely to you.

Building in the area: finding your gas service

Dear Sir/Madam,

A1 in Northumberland Part A, , N/A

**Thank you for telling us you plan to carry out work at
A1 in Northumberland Part A, , N/A.**

We have enclosed a plan of the mains pipes we own in this area.

This plan doesn't show pipes owned by other gas transporters or private companies so you should contact them separately to find out if they have pipes on your property. You can find their details at:

linesearchbeforeudig.co.uk.

Want to talk?

If you have any questions our Customer Care Team will be able to help:

0800 040 7766

Your checklist

1

Call our Before You Dig Team on **0800 040 7766 (option 3)** to tell us when you plan to start work.

2

Use our plans to find the gas main and the line of gas service on your property.

3

Hand dig trial holes to confirm the position and depth of your service.

If the gas service will run under any building you plan to construct, you will need to call us to arrange for the service to be moved.

If you'd like this information in Braille, large print or another language, please call us.

@NGNgas

facebook.com/northerngasnetworks

The plan also doesn't show service pipes, valves, siphons or stub connections but you should expect to find these.

Staying safe near our pipes

You must make sure that everyone working on the site follows the safe digging practices outlined in HSE publication **HSG47 Avoiding Danger from Underground Services** before using mechanical plant. You can download these for free from [hse.gov.uk](https://www.hse.gov.uk).

As there are **low and medium pressure gas mains** near your site, you must not carry out mechanical excavations within 0.5m of the **low pressure system** or 2m of the **medium pressure system**. You should also read the enclosed **Stay safe near our pipes – A guide to working near infrastructure**.

Kind Regards

NGN Before You Dig Team

If you'd like this information in Braille, large print or another language, please call us.
