Dear Sirs

**Planning Act 2008 and the Infrastructure Planning (Examination Procedure)
Rules 2010**

Application by National Highways (“the Applicant”) for an Order granting Development Consent to authorise the widening of an approximately 20.6km stretch of the existing A1 from Morpeth to Ellingham, with approximately 14.5km of online widening and approximately 6.1km of new offline highway (“the Proposed Development”).

I write on behalf of Historic England with reference to your consultation letter dated 26th April 2024, asking for any further comments on the further information submitted by Natural England and the applicant.

This information deals with issues which lies outside of Historic England’s statutory remit. We therefore have no comments to make on it.

However, there remain a series of (minor) issues previously raised by Historic England with reference to the Outline CEMP which do not yet seem to have been resolved. We also note in the same document, Appendix A (‘Construction areas around North Charlton Scheduled Monument’) appears to be blank, meaning that we cannot comment further on it.

I hope this advice is helpful, and we would be happy to assist further on these issues, or any others within our remit, as required.

Yours faithfully

**Mike Collins
Team Leader - Development Advice**
