

H A12 Flythrough junction 21 to 23

There is a proposed walking, cycling, and horse-riding bridge

Issues:

1. No need for a shared use bridge - there is nowhere on the Witham side of the A12 suitable for horse riding. Extra cost and unsightly construction for no benefit.
2. Proposed footpath link to Gershwin Boulevard (dotted orange line) would remove privacy and security from residences on Olivers Drive (numbers 14-28 evens). This was removed from the plans for the Malting Lane Estate before building commenced. There is an existing footpath via Kinloch Chase (red line) in the event that residents from Maltings Lane Estate wish to access the bridge.
