

Submission ID: 15752

We write on behalf of Messing and Inworth Action Group Limited (MIAG). MIAG is keen to highlight the Main Alternative proposal to the ExA, which is explained in the two documents submitted with this note (MIAG report on Main Alternative 19-05-2022 and MIAG - Benefits of Main Alternative).

MIAG notes that - to date - the ExA has not interrogated NH's approach to its proposals along the Inworth Road and its assertions regarding the scoring used by NH to discount the Main Alternative (which MIAG maintain is flawed and unreasonable). The purpose of the enclosed documents is to encourage engagement with this issue and ensure that it is properly accounted for by the ExA during the Examination process.
