1 Introduction to Schedule of Changes

1.1 Background

- 1.1.1 This Change Application relates to an application submitted by National Highways (the Applicant) to the Secretary of State for Transport (through the Planning Inspectorate) for a development consent order (DCO) under the Planning Act 2008. The A12 Chelmsford to A120 Widening Scheme (the proposed scheme) involves widening the A12 to three lanes throughout (where it is not already three lanes) with a bypass between junctions 22 and 23 and a second bypass between junctions 24 and 25. It also includes safety improvements, including closing off existing private and local direct accesses onto the main carriageway, and providing alternative provision for walkers, cyclists and horse riders to existing routes along the A12, which would be removed.
- 1.1.2 A DCO application for the proposed scheme was accepted for examination by the Planning Inspectorate on the 12th of September 2022 (DCO Application). The proposed scheme is currently in examination which started on 12th January 2023 and is due to close on 12th July 2023.
- 1.1.3 Since the DCO application was made, the Applicant has continued to engage and refine designs to identify opportunities to further improve the proposals. As a result of this, the Applicant is proposing six changes to the proposed scheme during the Examination stage to address suggestions by interested parties and to implement improvements to the proposed scheme.
- 1.1.4 This Change Application comprises the Applicant's request to the Examining Authority (appointed by the Planning Inspectorate) to accept into the Examination of the DCO Application six changes to the proposed scheme for which development consent is sought.
- 1.1.5 On 30 March 2023, in accordance with paragraph 3.2 of Advice Note 16: Requests to change applications after they have been submitted for examination (AN16), the Applicant submitted its Change Notification to the Examining Authority (ExA) [REP2-031] (Change Notification). The Change Notification set out the Applicant's intention to make a change request, detailed its consultation proposals and confirmed the likely date for the Change Application to be submitted as 30 May 2023. The Change Notification also provided the details and background to the Applicant's request for the proposed changes as required by Figure 2a of AN16.
- 1.1.6 The proposed six changes to the proposed scheme in summary are:

- Junction 19 – redesign of north bound on slip road
- Exclusion of Anglian Water pumping station from land proposed for compulsory acquisition at Hatfield Peverel
- Changes to the provision of replacement land at Whetmead and additional consequential changes reflecting change of ownership for open space in the Witham area
- Drainage works associated with B1023 Kelvedon Road at Inworth
- Junction 24/Inworth Road B1023 - Removal of the segregated left turn lane
- Junction 25 - Removal of the signalised crossroads and partial signalisation of the existing roundabout at A120/junction 25

1.1.7 The ExA responded to the Applicant's Change Notification on 6 April 2023 [PD-011] confirming that the Applicant had satisfied the requirements of Figure 2a of AN16 and acknowledged the Applicant's intent to submit a Change Application (Rule 9 Letter). In the Rule 9 Letter the ExA also confirmed the information required by Step 2 of AN16. Purpose of this document.

1.2 Purpose of this document

1.2.1 The purpose of this document is to showcase post-decision revisions of each application document and plan. As per AN16, Table 2.1 provides a full schedule of all application documents and plans, submitted in August 2022 and relevant Examination (Volume 9) documents which will be updated, listing consequential revisions to each document and plan or a 'no change' annotation.

1.2.2 Table 2.1 also includes a commentary where documents or plans would not be revised as a result of the Change Application being accepted but would be updated elsewhere. For example, an Environmental Statement Addendum has been produced for the Change Application to present an assessment of any new or different significant effects that are likely to result from the proposed changes to the proposed scheme. Certain appendices and figures from the Environmental Statement have been updated due to the proposed DCO changes. Updated versions of these appendices and figures have been included as appendices to the Environmental Statement Addendum instead of updating revisions to the existing.
