Note:
 This figure shows detailed ALC data where available from site survey, as reported in Appendix 10.2 [TR010060/APP/6.3], including estimated ALC grades where access was unavailable at the time of survey. Non-agricultural land is mapped within the Order Limits based on aerial imagery for the purposes of estimating the extents of agricultural land-take within the Environmental Statement; this mapping should not be used for other purposes as there may be inaccuracies in the data. Unsurveyed agricultural land is also shown within the Order Limits; this land is thought to be agricultural land based on aerial imagery but was not included within the ALC survey, nor were ALC grades estimated for this land. This includes small areas where polygons within the source dataset were not accurately snapped to Ordnance Survey Mastermap layers; these minor inaccuracies have been retained for consistency with the original data and are not considered of consequence to the assessment.
