PLANNING INSPECTORATE	TR010062-000008- 210614	Development Consent for the A66 Northern Trans-Pennine Project	Scoping consultation and notification
--------------------------	----------------------------	---	--

Network Rail has the following comments.

(1)

Network Rail have 2 structures that may be affected, however, these are at the end of their respective sections where the new scheme will tie in to the existing layout. As such it is not expected that the work will scheme will dramatically change the road alignment or level in the vicinity of our structures. The structures are CGJ7/171 (@ 50m 731y) and SAC/240 (@ 277m 1706y), both are under-bridges and will therefore be unaffected by any traffic increase or construction traffic. CGJ7/171 is at the western end of section 1 on the plans and SAC/140 is at the eastern end of section 2.

(2)

Network Rail were involved in this scheme in 2019 (our Ref: 165491/LN5184) which was at the time between M6 Jnc 40 and Appleby Jnc but now looks to be expanded to A1M Scotch Corner. No BAPA as indicated was put in place; there had been only one site meeting at the Appleby Jnc - where at the time the scheme was intended to end to the west side of SAC-UB240 which we awaited detail on to consider.

Network Rail Asset Protection LNW North have not reviewed or assessed any of what is presented to date.

Network Rail Asset Protection LNW North will need involvement in reviewing all elements in proximity of CGJ7 and SAC Lines (M6 Jnc 40 and Appleby Jnc areas) from this concept through Surveys, design and Construction (even if it is just to conclude we would not require involvement).

Given the timescale and the expanded scope we believe it would be best for Highways England to submit a new enquiry (attached) as a way forward to AssetProtectionLNWNorth@networkrail.co.uk

Also please note Network Rail Asset Protection LNW North have not considered anything concerning the dismantled Eden Valley Railway footprint which will if relevant be needed to be taken up by others.
