

I wish to be heard orally at the Preliminary Meeting, Open Floor Hearing and Compulsory Acquisition Hearing and to attend the Issue Specific Hearings relating to Section 8 of the proposed scheme, Rokeby to Cross Lanes.

I see that the visit to the entrance of Rokeby Park was in the failing light and the visits abandoned at that point

Mention is made that :-

The USI was undertaken only from publicly accessible land in order to view the areas subject to the proposed development, the existing road network, surrounding properties and the environment. Further USIs may or may not take place during the Examination.

I suggest that the Examining Authority would benefit from visiting the non-publicly accessible areas of Rokeby Park – including Rokeby Hall itself, inside and out

Many thanks
