

A66 NORTHERN TRANS-PENNINE PROJECT DCO

IP A R Leeming Ref 20031946

PRINCIPAL AREAS OF DISAGREEMENT AND COMMON GROUND as at 5 December 2022

Plot No.	Consultee/IP	Summary of Consultee Comments	National Highways Response	Current Position
0102-01-01	A Leeming	Temporary Licence Restoration details required	None	IP awaiting information.
0102-01-03	A Leeming	None No objection to acquisition	None required.	No further action required
0102-01-06	A Leeming	Proposed attenuation pond construction with associated drainage. IP considers. <ol style="list-style-type: none"> No justification in engineering terms has been provided for this pond. Entrance to Skirsgill Park and Business Park does not need to be permanently acquired. Access for construction and subsequent maintenance 	If speed limit is adopted between M6 Junction 40 and the existing railway bridge there would be no requirement for this pond. Investigation and redesign is ongoing.	Response from National Highways (NH) awaited.

		<p>can be given from A66 direct if needed.</p> <p>4. If pond justified the construction, it would be desirable for this to be designed as a more natural looking pond, without use of concrete paving, utilitarian fencing and signage etc, given it will not be publicly accessible.</p> <p>5. The existing 24" drain and outfall to the R Eamont should be sufficient to drain the relatively small area of additional hard service proposed.</p>		
0102-01-07 0102-01-50	A Leeming	<p>IP objects to permanent acquisition of this plot</p> <p>Permanent acquisition of this area is not needed.</p> <p>If works are required an easement for drainage would be sufficient to install/alter drainage of the proposed pond at 0102-01-06</p>	As 0102-01-06 above.	Response from NH awaited
0102-01-14	A Leeming	<p>No principal objection</p> <p>Details of accommodation works required.</p>	None to date.	Response from NH awaited

Plot No					
0102-01-17	A Leeming	No principal objection. Details of accommodation works required.	NH say Kier exploring whether retaining wall in this area could be built instead of removing existing trees in this area .	Outcome of design awaited.	
0102-01-34	A Leeming	IP objects to acquisition of this plot required by NH for tree planting and mitigation. The land is historic parkland. Alternative land outside draft DCO has been offered	Alternative proposal to be considered.	Outcome of further consideration awaited.	
All plots	A Leeming	The draft DCO acquisition plans show all plots except 0102-01-01 as permanent acquisition. With exception of 0102-01-03 & 0102-01-06 permanent acquisition is not required or reasonable for the purposes proposed. The IP landowner willing to agree permanent easements temporary licences and maintenance agreements as needed.	Land maps show permanent acquisition is shown in the main to prove to the Planning Inspectorate that the proposed DCO is robust. NH does not want to own more land than it requires and is working on the design to reduce the current footprint.	Outcome of redesign and further consultation awaited.
