## 1.1 Purpose of the document

1.1.1 The below table sets out the Applicant's proposed itinerary for the Accompanied Site Inspection (ASI), due to take place on Tuesday 28<sup>th</sup> February 2023 (if required). The Interested Parties requested various ASIs via the Planning Inspectorate and the Applicant has incorporated all of these below. The Applicant has also attempted to ensure that each visit has due time to consider the corresponding site visited. The Applicant notes that in some exceptions, there may be some access required on foot – in those situations, a small amount of additional time has been allowed for.

1.1.2 Specific stop points for transport, final timings and attendees from the Applicant team will be confirmed once the itinerary has been confirmed by the Examining Authority.

1.1.3 We also note that the ExA have already undertaken several Unaccompanied Site Inspections (USI) across the A66 route. For those areas that seem to have already been visited on a USI, we have marked these with an asterisk (\*) in the table below.
