

Submission ID: 13597

We note the draft ASI itinerary as proposed by the Applicant, but would wish to register our concern that the period of time allowed for the inspection at Winderwath Estate (20 minutes max allowing for travel to the next location) is insufficient for the ExA to consider the issues and locations raised in written reps and we therefore request that a longer inspection period should be allocated.

Please also note that the both Alan Bowe (Trustee) and Tim Parsons (Agent - H&H Land & Estates) will be present at the inspection.

Off road transport to any off tarmac locations can be provided if required. Please advise if required and numbers attending.
