A66 Northern Trans-Pennine Project

17 May 2023

Dear Ms Corso Griffiths,

**NATIONAL HIGHWAYS – THE A66 NORTHERN TRANS-PENNINE PROJECT
APPLICATION FOR A DEVELOPMENT CONSENT ORDER (“DCO”) -
consent to include crown land in the DCO**

As discussed in correspondence, National Highways has applied, under the Planning Act 2008, for a development consent order (“**DCO**”) for the A66 Northern Trans-Pennine Project (“**the Project**”). The land required for the Project includes land which is owned by the Secretary of State for Defence (for the purposes of the Ministry of Defence) and which therefore comes within the definition, in the Planning Act 2008, of Crown land (“**the MoD Crown land**”).

The MoD Crown land is identified on National Highways’ Crown Land Plans for Scheme 06 (Appleby to Brough), which forms part of the DCO application documentation. The details of the plots comprising the MoD Crown land are set out in the Appendix to this letter. National Highways seeks the consent of the Ministry of Defence, as the appropriate Crown authority (“**Crown authority consent**”) in respect of the MoD Crown land for:

- a) the inclusion of the MoD Crown land in the DCO;
- b) the compulsory acquisition of non-Crown interests in the MoD Crown land; and
- c) the use of the MoD Crown land to accommodate the proposed uses associated with the Project as set out in more detail in the table in the Appendix to this letter.

I confirm that the appropriate Crown authority to give Crown authority consent is the Ministry of Defence.

I note that National Highways does not intend to acquire compulsorily any interests in the MoD Crown land which are held by the Secretary of State for Defence, but only the interests which others may have in the MoD Crown land.

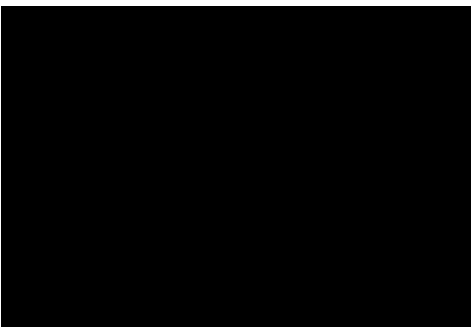

Accordingly, I confirm that the Ministry of Defence hereby grants Crown authority consent to the inclusion of the MoD Crown land in the DCO for the Project and to National Highways' application for powers of compulsory acquisition in respect of all interests in and rights over the MoD Crown land, other than those held by the Secretary of State for Defence.

I also confirm that National Highways would be permitted to use the MoD Crown land to carry out works authorised by the DCO, if the DCO is made by the Secretary of State for Transport in due course subject to agreement of formal terms to provide for:

- freehold transfer of areas required by National Highways permanently (e.g. for carriageway, verge, landscaping and other environmental mitigation),
- licencing of areas required by National Highways for temporary occupation (e.g. for construction access, compounds and laydown areas),
- formally documenting the provision of works to be carried out (including but not limited to accommodation works and the reprovision of military infrastructure affected by the Project) or the highway construction methods to be employed by National Highways for the benefit of MoD, and
- any other deeds or documents required in respect of dealings with the MoD Crown Land
- recovery of costs

The Ministry of Defence would expect to be kept informed of National Highways' progress with the Project, in relation to the implementation of the development consent order, should development consent for the Project be granted by the Secretary of State in due course.

Yours sincerely
