Good evening

I am emailing as I wish to express my full support of Dr Andrew Boswell's evidence that he has submitted to the A66 examination, as well as his responses to the Secretary of State for Transport's consultations. This includes his evidence regarding the failure to assess HGV induced demand, the lack of cumulative assessment of Greenhouse Gases and risk to our country's ability to meet our climate target.

I remain completely and strongly opposed to the A66 project.

Thanks and kind regards

Laura Blake
