Dear Secretary of State

I wholly support Dr Andrew Boswell's latest submission dated 19<sup>th</sup> Oct. I urge you to refuse consent for the scheme based on its climate and biodiversity Registration ID: 20031841 impacts and the poor value for money – which is similar to the now dismissed HS2. At the very least a decision on the A66 with respect to the cumulative climate impacts cannot be made until the Court of Appeal has made its judgement on Dr Boswell's dismissed legal challenge to the A47 schemes - R (Boswell) v Secretary of State for Transport [2023] EWHC 1710.

Regards

Anne Robinson
