**Subject:** NSIP - TR010062 – A66 Northern Trans-Pennine Project - HSE Response dated 23/11/23

Dear Planning Inspectorate

Thank you for your original email dated 8 November 2023 and further email dated 22 November 2023 in response to my request for clarification (from Mr Steve Parker), with regard to seeking comments from all interested parties on the A66 Northern Trans-Pennine Project.

Please find HSE's advice below.

#### **HSE's land use planning advice**

-

In previous HSE responses, the Major Hazard Sites and Major Hazard Pipelines in close proximity to the areas of interest were identified to PINS. HSE recommended that the 'A66 Northern Trans-Pennine Project' contact these sites identified, to discuss the possible impact of the work on these Sites and Pipelines. HSE presume that this action was carried out, and any issues identified were acted upon. I understand from your reply 'A66Dualling' received 22 November 2023 that there were/are no further areas identified for HSE to comment upon.

-

#### **Explosives sites**

HSE have no comment to make as there are no HSE licensed explosives sites in the immediate vicinity of the proposed development.

Kind Regards  
Shirley
