Dear Sir/Madam

As someone who lives very close to the proposed road I am hugely worried about flooding. This is already a very wet area and it can only get much worse despite the making of holding pools.

As anyone one talks to says works must be to the north side of the present road.

On a more general point as I travel on motorways we are now frequently being given speed limits for air quality purposes. This may become more widespread. 50 mph camera limits work at Kirkby Why not elsewhere for safety which is the priority.

Thank you for your time.
