Subject: A66 Road improvement

I was dismayed to hear of yet more ministerial prevarication with regard to this project. What exactly is expected to change in the next few weeks or is this simply a ploy to kick the can down the road so that the next government has to take the decision. The current road is simply not fit for purpose as I witnessed two weeks ago when traffic was halted and delayed for a full day. I hate to say this but if this major road had been south of Oxford it would have been dualled decades ago. So much for the fabled levelling up. It's even includes some of your constituency. What happened to all the cancelled HS2 money. Folk in the North are constantly being shortchanged by your unfulfilled promises. I had great hopes when you became my MP and eventually took over from that [REDACTED] Truss, but I'm sorry to say you're almost as inept.
