Dear Jessica Weatherby (Case Officer National Infrastructure (Energy)),  
Please accept our apologies for the delay in responding. The Council are pleased to confirm that the consultation process is considered both adequate and sound. There have been various iterations of the scheme proposals by Atkins and the County, as matters have progressed, particularly over the last two years. The Junction 10 improvements scheme matters have also been informally discussed at a number of planning groups such as the County Planning Officers Group and at various Gloucestershire Transport Group Meetings, including concept design matters and potential costs as the scheme has emerged, for example.

Yours Faithfully

Conrad Moore,

Principal Planning Officer, Planning Strategy

For Tom Ridley, Interim Planning Strategy Manager.
