1. Introduction

1.1. Purpose of this document

- 1.1.1. This document provides a guide to Gloucestershire County Council's M5 junction 10 improvement scheme Development Consent Order (DCO) application pursuant to the Planning Act 2008. The original application was submitted to the Planning Inspectorate on 19 December 2023 and accepted for examination on 16 January 2024.
- 1.1.2. Since submission, several of the original documents have been revised with a number of new documents submitted. This guide charts the submission of these documents to the Planning Inspectorate. This is a live document and will be updated throughout the examination process period and submitted, when updated, for each deadline.

1.2. Structure of this document

- 1.2.1. This document comprises two chapters, as follows:

Chapter 1: Introduction

Chapter 2: Document Tracker

2. Document Tracker

2.1. Master Document List

2.1.1. This section presents the master document list, which provides a list of all documents submitted to date, indicating either the latest revision (if applicable) or when a new document was submitted. The documents are grouped by volume, as shown in Table 2-1.

Table 2-1 - Volume of documents

Volume	Contents
1 - Application Form / Information / background	The completed application form, Applicant's covering letter, an introduction to the Scheme and evidence to support compliance with section 55 of the Planning Act 2008.
2 - Plans / drawings / sections	These include plans that illustrate the location of the Scheme, the proposed works, the land that will be acquired or used, Crown land, the streets, roads and private means of access to be stopped up, altered or otherwise provided, scheme layout plans, engineering details and special category land plans.
3 - Draft Development Consent Order	The draft Development Consent Order (DCO) is the document that sets out the legal powers that the Applicant is seeking to enable it to build, operate and maintain the Scheme, together with a separate document, the Explanatory Memorandum, explaining the provisions of the Order. The volume also contains two further documents setting out the position regarding other consents and agreements and a validation report for the drafting of the DCO.
4 - Compulsory Acquisition Information	Documents, including the Book of reference and the Statement of reasons, which set out the land to be acquired or used, and justification for the seeking of compulsory acquisition powers over this land and evidence to support the availability of funding to deliver the Scheme.
5 - Consultation Report	The Consultation report details the methodology and outcomes of the consultation undertaken between 2019 and 2023 and how responses to the consultations and the opinions expressed have been taken into account.
6 - Environmental Impact Assessment (EIA) information	An assessment of the likely significant effects (both positive and negative) of the Scheme on the environment and a description of mitigation measures proposed to reduce any negative impacts. This volume includes other environment related documents including a Statement on statutory nuisance, Water Framework Directive assessment, Flood risk assessment and a Habitat Regulations assessment.
7 - Other Documents	Additional documents that support the DCO application; these are not legally required but provide useful information, including the Planning Statement and schedule of accordance with National Policy Statement, an Environmental Management Plan (EMP), a Register of Environmental Actions and Commitments, a Transport assessment report and Equality impact assessment report.

Volume	Contents
8 - Statements of common ground	Joint position statements with key stakeholders to confirm those matters which are agreed and other matters where no agreement has been reached and which might therefore be a focus for the examination of the DCO application.
9 - Additional submissions	New documents submitted to the Planning Inspectorate during pre-Examination and examination.

2.1.2. Table presents the master document list. Revised documents are **emboldened** with the relevant revision number and the previous version labelled 'superseded'
