

**TR010064: Application by National Highways for an Order Granting Development Consent for the M60/M62/M66 Simister Island Interchange Project**

Deadline 5 (10/01/2025)

Action Points arising from Issue Specific Hearing 2 (ISH2) on environmental matters held on Wednesday 27 and Thursday 28 November 2024

Bury MBC response

Action	Description
35	Consider if a new requirement should be added to the dDCO requiring the details of the final design for the netting to Pike Fold Golf Course to be approved by the SoS following consultation with BMBC to ensure that impacts of any netting would be minimised.
BMBC response	BMBC has been liaising with the Applicant in relation to its response to the same question. BMBC agree with the Applicant’s suggestion that ball netting details must be included as part of the landscaping scheme to be submitted to discharge Requirement 5(3) of the amended dDCO, that will be submitted at Deadline 5.
46	Consider the submissions at D4 by the Applicant on waste and then detail any concern over the capacities of local waste infrastructure and the effect this Scheme could have on them. Explain if the scheme proposals for waste accord (and if so how) with your mineral and waste policy.
BMBC response	<p>Having considered the Applicant’s submission at D4 (REP4-028), BMBC does not have any concerns over the capacities of local waste infrastructure and the effect this Scheme could have on them.</p> <p>The Greater Manchester Joint Waste Development Plan was adopted in 2012. The purpose of the Waste Plan is to set out a waste planning strategy to 2027, which enables the adequate provision of waste management facilities in appropriate locations for municipal, commercial and industrial, construction and demolition and hazardous wastes.</p> <p>The policies in the GM Joint Waste Development Plan relate to proposals for waste developments and are not therefore relevant.</p> <p>The same applies to the Bury Unitary Development Plan and the Places for Everyone Joint Development Plan Document.</p>
49	Consider the submissions at D4 by the Applicant on the Scheme’s material requirements and detail any concern about the ability of your region to supply the materials required for the scheme. Explain if the scheme’s estimated material requirements accord (and if so how) with your mineral and waste policy.

BMBC response	<p data-bbox="363 194 1390 309">Having considered the Applicant's submission at D4 (REP4-028), BMBC does not have any concerns about the ability of the region to supply the materials required for the Scheme.</p> <p data-bbox="363 349 1390 658">The Greater Manchester Joint Minerals Plan was adopted in 2013 and includes a set of policies which assist in the consideration of minerals planning applications, safeguards minerals resources which are likely to be required in the future and identifies areas within which new or expanded minerals extraction is likely to be suitable. Annual monitoring of minerals extraction and changes in likely future needs will inform whether and when an update of the joint minerals plan is required, including as a result of the growth in development set out in this plan.</p> <p data-bbox="363 698 1390 775">No policies in the GM Joint Minerals Plan relate to the use of minerals in developments falling outside of the scope of development identified above.</p> <p data-bbox="363 815 1390 891">The same applies to the Bury Unitary Development Plan and the Places for Everyone Joint Development Plan Document.</p>
