1 Introduction

1.1 Purpose of this document

- 1.1.1 National Highways (the Applicant) has submitted an application under section 37 of the Planning Act 2008 for an order to grant development consent for the A46 Newark Bypass (the “Scheme”).
- 1.1.2 This document is part of a suite of documents which accompanies the application to grant development consent. A full description of all the Application Documents is provided in the Introduction to the Application (**TR010065/APP/1.3**) which also accompanies the application.
- 1.1.3 This document is included in the application to comply with Regulation 5(2)(i)(iv) and Regulation 5(4) of the Infrastructure Planning (Applications: Prescribed Forms and Procedures) Regulations 2009 (the “2009 Regulations”), which require:
- 5(2)(i) “a land plan identifying’....*
- (iv) where the land includes special category land and replacement land, that special category and replacement land”*
- 1.1.4 These Plans are also being submitted under Regulation 5(4) of the 2009 Regulations which states;
- “Where a plan comprises three or more separate sheets a key plan must be provided showing the relationship between the different sheets.”*
- 1.1.5 This set of plans specifically identifies the special category land within the Order Limits. The land within the Order Limits includes land that is open space, this being a type of land that fall within the definition of special category land. These plans identify those types of land, as well as whether it is proposed to permanently acquire land or rights or take temporary possession of such land.
- 1.1.6 In this plan set “the Order limits” means the “limits of land to be acquired or used permanently or temporarily within which the authorised development may be carried out.

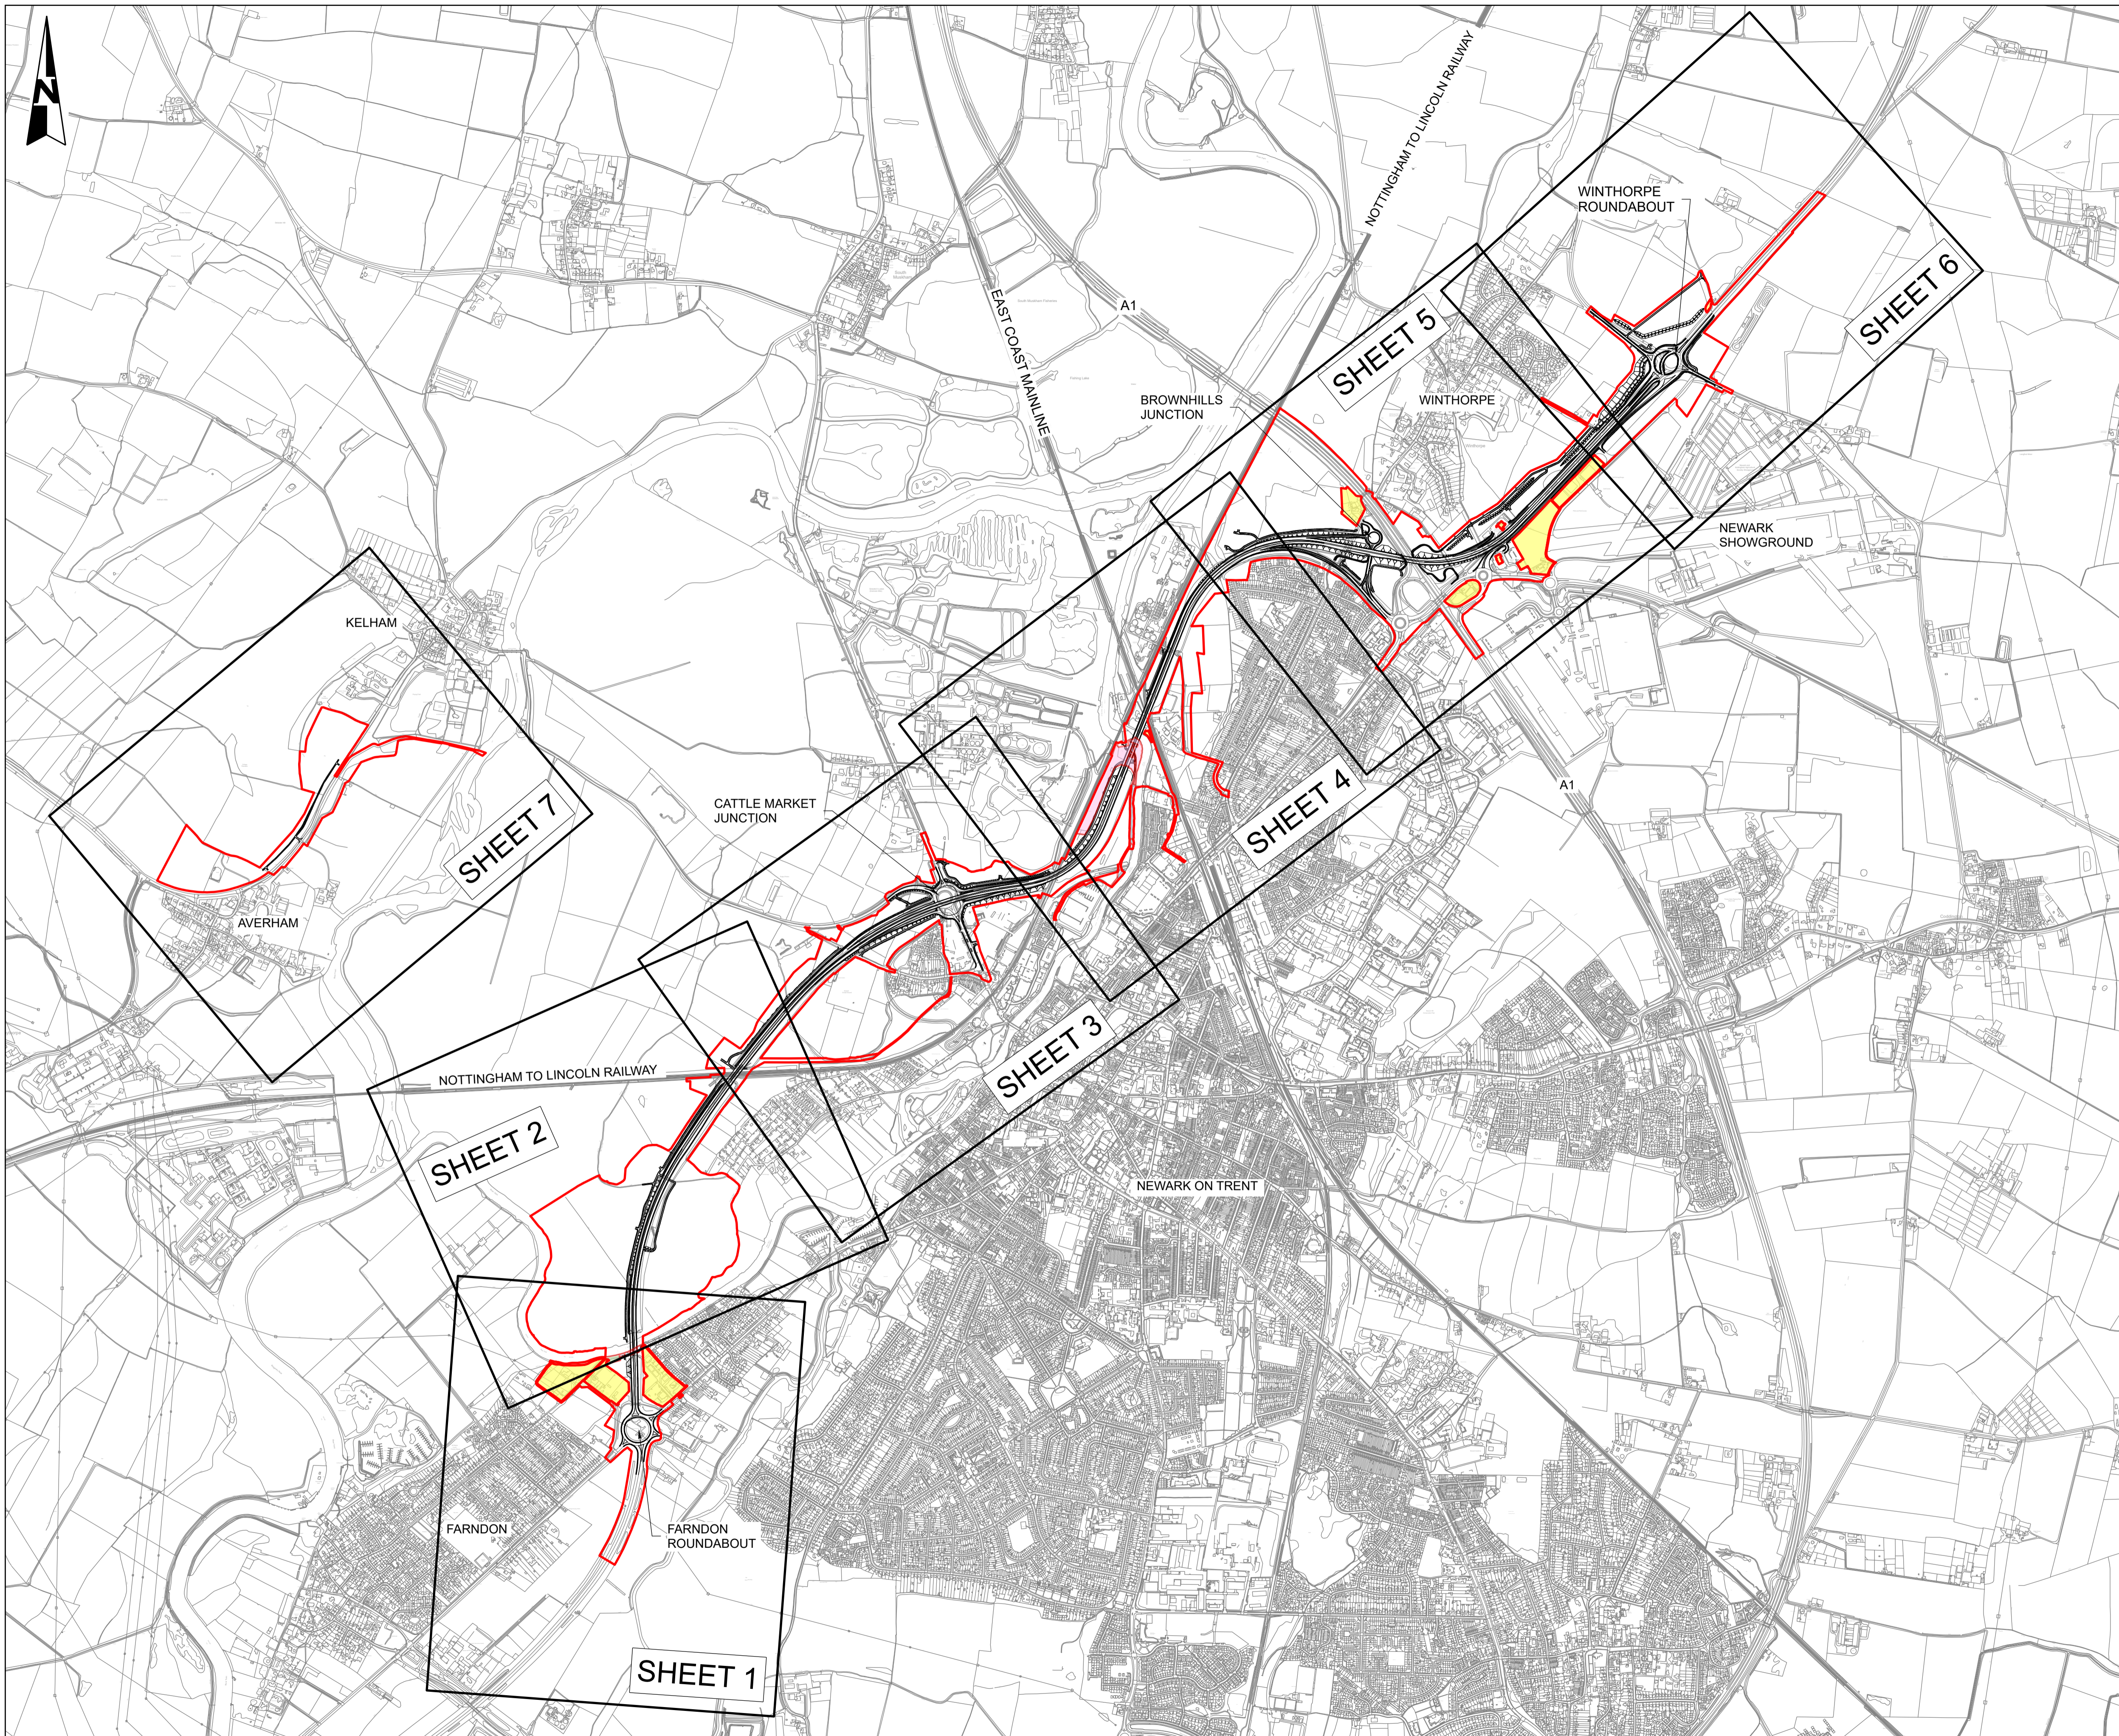

2 Scope and format of the Special Category Land Plans

- 2.1.1 To ensure sufficient detail and clarity of information, the Special Category Land Plans, sheets 1 to 7, have been prepared at a scale of 1:2,500. The key plan uses a smaller scale than that prescribed in Regulation 5(3) of the 2009 Regulations but only so that the Project can be represented in a single sheet plan.
- 2.1.2 The Applicant has adopted the same consistent approach for the Special Category Land Plans as has been used for the:
- a. the Land Plans (**TR010065/APP/2.2**),
 - b. the Crown Land Plans (**TR010065/APP/2.11**).
- 2.1.3 Each plot of land shown on the Special Category Land Plans has been clearly delineated and given a unique reference, which corresponds with the referencing or plot numbering used in the Book of Reference (**TR010065/APP/4.3**). The first number relates to the sheet on which the plot is located while the second number is used to distinguish between the plots.
- 2.1.4 In accordance with good practice, the plots have generally been numbered from west to east on each sheet following the sheet numbering system. The Order Limits are depicted on the Special Category Land Plans with a thicker red line to ensure that they are clearly distinguishable from the red lines used to depict plot boundaries.
- 2.1.5 Land shaded in pink indicates open space land to be permanently acquired.
- 2.1.6 Land shaded in blue indicates open space land to be used temporarily and rights to be permanently acquired.
- 2.1.7 Land shaded in green indicates open space land to be used temporarily.
