

The Examining Authority's written questions and requests for information (ExQ1)

Q3.1.1 Refers to offsite BNG at Doddington Hall. Given my clients engagement throughout 2022 and 2023 with the Project Team to bring forward a management agreement for BNG on land at Averham Meadows Parcel 1/19a and 19/b post works, and despite my clients and his BNG advisors best efforts the Project Team failure to bring anything meaningful forward in terms of a management agreement, we would like know why they have chosen Doddington Hall for offsite BNG storage which is in a different local authority and Doddington Hall not impacted directly by the scheme, surely there would be more environmental enhancement if BNG was on land adjoining the scheme or close by.
