# Our consultation

**Our consultation launches on Tuesday 8 February and closes at 11:59 pm on Monday 4 April 2022.**

**We are Luton Rising, the trading name of London Luton Airport Limited, by which you may have previously known us. The name Luton Rising better reflects the wide range of assets we look after, and a broader mission than just being an airport owner. It also reflects our own ownership structure: uniquely for a major UK airport, we are wholly publicly-owned – by Luton Borough Council – which means that we can focus on benefit to the community rather than private shareholders.**

Our largest asset is London Luton Airport, and this document is about our plans for expansion of the airport, and how you can have your say about them.

We are legally obliged to hold a public consultation before submitting our plans, but we don't see this consultation as a box-ticking exercise. We want to hear your views, and use them to help inform our proposals, as we have done following the two rounds of public consultation we've already held.

The proposals described here differ in important ways from those we presented at the previous statutory public consultation in 2019. For example, we have redesigned the scheme so that it moves far less earth to build the platform for the airfield – the equivalent of two Wembley Stadiums less. We have also heard your concerns about the environmental impact, and are proposing a new Green Controlled Growth framework. It places robust limits on key environmental impacts, and will not rely on our good faith to keep to them. They will be legally binding, and independently monitored.

Nevertheless, we do have good faith. You might think it odd for a company that owns an airport, but sustainability is a central part of our values. We believe there is a way to grow an airport in a sustainable and responsible way, and we describe how we set about that in the consultation materials.

Sustainability is about more than environmental issues – it's social and economic impacts too. Our airport is a vital part of the economic eco-system of the region and beyond, directly or indirectly supporting tens of thousands of jobs. The proposed expansion to 32 million passengers a year will generate thousands more jobs and more than a £1 billion increase in economic activity in Luton and the neighbouring counties. We want more local people to be able to access these jobs, so our proposals also include an extensive Employment and Training Strategy to make that possible.

Our airport is the most socially impactful in the UK. Since 1998, we have contributed £257 million to support frontline services and since 2002 we have contributed £155 million to support local community organisations and charities. These organisations help make life-transforming changes for people, and our proposals include the new Community First fund, which will allow for much greater support for community projects in Luton and the neighbouring counties.

We have made the case that our airport does much that is good. It can also cause effects which are not so good.

We understand that people who live under flightpaths to our airport are worried about the potential increase in noise from aircraft. This is a very reasonable concern, and strict limits on the impact of noise are included in the Green Controlled Growth framework mentioned above. We have also changed the compensation proposals for people who are affected by aircraft noise so that they are both more generous in the amounts of money available, and made available at lower noise thresholds than previously. Together, these changes make the noise compensation package among the most generous offered by a UK airport.

Closer to the airport, we know that many users of Wigmore Valley Park are upset about how the plans for expansion involve building over part of the park. We have listened closely to these concerns.

Alongside our commitment to make the park at least 10% bigger than at present, our revised design includes protecting more of the existing habitat and landscape, better screening of the airport, and repositioning the new area nearer to the community it serves.

“Our airport is the most socially impactful in the UK. Since 1998, we have contributed £257 million to support frontline services and since 2002 we have contributed £155 million to support local community organisations and charities.”

To address the potential loss of biodiversity, we will also create new areas of natural habitat such as native broadleaf woodland and meadow grassland. The effect will be an overall increase in biodiversity of at least 10%.

## How to learn more, and have your say

We want to hear what you have to say. We aim to make it as easy as possible for you to get access to all the information, ask all the questions you want and make your views known, whether that's online or at one of the in-person events (Covid permitting).

Airport expansions affect a lot of people – in both good ways and bad. We need our proposal to help balance those benefits and disadvantages as fairly as possible, and your views can help us do that.

You can find out about the scheme and respond to the consultation online by visiting our virtual consultation room at [www.lutonrising.org.uk](http://www.lutonrising.org.uk). The room is open 24/7 throughout the consultation period so you can visit at a time convenient to you.

You can read about our proposals, watch videos about key aspects of the scheme, download our consultation materials, and submit questions to the project team.

We understand that some of you may not be able to visit our virtual consultation room or may still prefer to attend an event in person. For this reason, we're planning to visit you in the community and hold a series of consultation events. At the events you'll have the opportunity to view the proposals, speak to members of the project team, and complete a consultation response form to share your feedback. The full programme of events is shown overleaf.

**We'll be following all relevant guidance regarding Covid-19 to ensure the safety of all attendees. Any changes to the planned face-to-face events, for example cancellations as a result of Covid-19 restrictions, will be published on our website and social media channels. Please check these for the latest information before travelling to an event.**

If you do not have online access, all of our consultation documents will be available to view at the document inspection venues detailed overleaf.

This consultation is an opportunity for you to share your views on our plans to expand the airport. We'll carefully consider your comments as we refine our proposals, ahead of submitting our application for development consent. All of the feedback we receive as part of this consultation will be summarised and responded to in the Consultation Report submitted as part of our application.

## Our events in the community

Date and time	Area	Venue address
<b>Tuesday 15 February</b> 15:00-20:00	Luton	<b>St Margaret of Scotland Church Hall</b> 22a Bolingbroke Road, Luton LU1 5JD

# Future LuToN

## Making best use of our existing runway

### Statutory consultation

#### Your chance to have your say

We are Luton Rising, the trading name of London Luton Airport Limited. Future LuToN is our proposal to increase the capacity of the airport to 32 million passengers per annum by making the best use of our existing runway. We're holding a statutory consultation on our proposals and want to hear your views.

#### Get involved and help shape our proposals

Visit our virtual consultation room to find out more about our proposals and respond to the consultation online: [\[Redacted\]](#)

#### Come along to one of our community events

We're planning to visit you in the community and hold a series of consultation events. At the events you'll have the opportunity to view the proposals, speak to members of the project team, and complete a consultation response form to share your feedback.

**Any changes to the planned face-to-face events, for example as a result of COVID-19 restrictions, will be published on our website.**

**The consultation is running between Tuesday 8 February and Monday 4 April 2022.**

## **Press Release 1: Announcement of consultation**

Airport

February 2, 2022

Statutory Consultation to open on the proposed expansion of London Luton Airport

On Tuesday 8 February, Luton Rising, the owners of London Luton Airport, will open a new statutory consultation on its long-term proposals to expand the airport, running until 4 April.

The proposal is to increase the capacity of the airport to 32 million passengers per year, by building a new terminal and making the best use of the existing runway.

Councillor Javeria Hussain, Chair of Luton Rising, said: “Our proposals will reflect the sustainability values, both of Luton Rising, and our sole shareholder, Luton Council. We want to maximise the social and economic benefits of growth and we firmly believe there is a way to grow an airport in a sustainably responsible way. We set out details on how we propose to achieve that in our consultation. Sustainability is about more than environmental issues – it’s social and economic impacts too. Our airport is a vital part of the economic ecosystem of the region and beyond, directly and indirectly supporting tens of thousands of jobs. The proposed expansion will generate thousands more jobs and more than a £1 billion increase in economic activity in Luton and the neighbouring counties. We want more local people to be able to access these jobs, so our proposals also include an extensive Draft Employment and Training Strategy to make that possible.

“Our airport is the most socially impactful in the UK. Since 1998, we have contributed £257 million to support frontline services, and since 2002, we have contributed £155 million to support local community organisations and charities – 20x per passenger more than any other UK airport. These organisations help make life-transforming changes for people, and our proposals include the new Community First fund, which will allow for much greater support for community projects in Luton and the neighbouring counties impacted by airport operations.”

Graham Olver, Chief Executive of Luton Rising, said: “These proposals will differ in significant ways from those presented at the previous statutory consultation in 2019. For example, our new Green Controlled Growth framework is at the heart of our sustainability measures, which we believe are some of the most far-reaching ever put forward by a UK airport. It places robust limits on key environmental impacts and will not rely on our good faith to keep to them. They will be legally binding and independently monitored.

“The views expressed at the 2019 consultation were an important influence on these changes. This is the chance to have your say on our new plans, and help us to improve them further.”

Members of the public will be able to see the proposals and ask questions at 13 in-person consultations. There is also a key enhancement to engaging with this statutory consultation: a virtual room, re-creating the in-person experience online, available 24/7 throughout the period.

The detailed proposals, consultation materials and the virtual consultation room will go live on the website [www.lutonrising.org](http://www.lutonrising.org) early on the morning of Tuesday 8 February.

A list of the consultation events has been published on the website in advance of the consultation commencing to give people more time to plan their attendance, and these are as follows:

LIST OF IN-PERSON EVENTS FOR THE STATUTORY CONSULTATION  
ON THE PROPOSED EXPANSION OF LONDON LUTON AIRPORT

## **Press release 2: Launch of consultation**

Airport

February 8, 2022

Statutory consultation opens on the proposed expansion of London Luton Airport

Luton Rising, the owner of London Luton Airport, has opened a new statutory consultation on its long-term proposals to expand the airport. The proposal is to increase the capacity of the airport to 32 million passengers per year, by building a new terminal and making the best use of the existing runway.

Our website [lutonrising.org.uk](http://lutonrising.org.uk) has details of the 13 public events – where members of the public can see the proposals and ask questions, as well as films, information packs and a special virtual exhibition room. Responses to the consultation can also be submitted online.

This video summarises Luton Rising's proposals, sets out the case for growth and outlines how it proposes to minimise impacts.

Councillor Javeria Hussain, Chair of Luton Rising, said: "Our proposals reflect the sustainability values, both of Luton Rising, and our sole shareholder, Luton Council. We want to maximise the social and economic benefits of growth and firmly believe there is a way to grow an airport in a sustainably responsible way. Our consultation sets out how we propose to achieve this.

Sustainability is about more than environmental issues – it's social and economic impacts too. Our airport is a vital part of the economic ecosystem of the region and beyond, directly and indirectly supporting tens of thousands of jobs. The proposed expansion will generate thousands more jobs and an extra £1 billion in economic activity in Luton and the neighbouring counties. We want more local people to be able to access these jobs, so our proposals also include an extensive Draft Employment and Training Strategy to make that possible.

“Our airport is the most socially impactful in the UK. Since 1998, we have contributed £257 million to support frontline services, and since 2002, we have contributed £155 million to support local community organisations and charities – 20x per passenger more than any other UK airport. These organisations help make life-transforming changes for people, and our proposals include the new Community First fund, which will allow for much greater support of community projects in Luton and the neighbouring counties impacted by our airport’s operations.”

Graham Olver, Chief Executive of Luton Rising said, “These proposals differ in significant ways from those presented at the previous statutory consultation in 2019. For example, our new Green Controlled Growth framework is at the heart of our sustainability measures, which we believe are some of the most far-reaching ever put forward by a UK airport. It places robust limits on key environmental impacts and will not rely on our good faith to keep to them. They will be legally binding and independently monitored.

“We would encourage as many people as possible to take a look at these proposals, and to give us your feedback on them. The views expressed at the 2019 consultation were an important influence on the changes we have made since then. This is the chance to have your say on our new plans and help us to improve them even further.”

Notes to editors

Luton Rising is the trading name of London Luton Airport Ltd.

The airport is our largest asset, but we are much more than airport. We are owned by a sole shareholder Luton Council for community benefit, not private shareholders. We are supporting a movement to create a town built on fairness, where people can thrive and no-one has to live in poverty.

Our major projects include construction of the Luton DART fast transit, scheduled to open in 2022, and mixed-use developments aimed at bringing forward thousands of new jobs within the London Luton Airport Enterprise Zone.

### **Press release 3: Stevenage event postponed**

Airport

February 17, 2022

Airport expansion consultation event in Stevenage postponed

Owing to the amber storm warnings in place across the region, the in-person consultation event for the proposed long-term expansion of London Luton Airport that was scheduled to be held on Friday 18 February at Stevenage Arts and Leisure Centre (from 3-8pm) has been POSTPONED.

Cllr Javeria Hussain, chair of Luton Rising, said: “An amber storm warning means that people are advised to take extra care when travelling, and that there is a risk of disruption and even danger to life from flying debris. For safety reasons, we are clear that no-one should have to make an unnecessary journey tomorrow on our account.

“We apologise sincerely for the inconvenience caused for reasons which are clearly beyond our control. We are already working to reschedule this important consultation event in Stevenage before the consultation closes on 4 April 2022, if at all possible, so that local people can meet our project

team and ask any questions they may have about our proposals. We will make a further announcement as soon as possible.”

In the meantime please visit our online consultation room available 24/7 at [www.lutonrising.org.uk](http://www.lutonrising.org.uk) to learn more about the plans for our airport expansion and provide your response to the consultation.

#### **Press release 4: Close of consultation**

Airport

April 5, 2022

Excellent engagement on consultation on proposed expansion of London Luton Airport

From 8 February until 4 April, Luton Rising held a statutory consultation on the long-term proposals to increase the capacity of the airport to 32 million passengers per year, by building a new terminal and making the best use of the existing runway.

Members of the public were able to view the proposals, including plans to mitigate the impact of growth and ask questions at an exhibition held in a number of different public venues across the region. In addition, they were able to view the exhibition virtually online, as well as several films and all the relevant documentation. In total more than 15,000 people viewed the proposals either in-person or online, with thousands more hearing more about the proposals at community events and forums. As a result more than 2,500 people have submitted their written views.

A special hybrid Question Time event was also held last week at the University of Bedfordshire, where those attending in-person and online were able to ask a panel of experts questions on the expansion plans. In addition, the consultation provided a range of opportunities for the local community to learn about the proposals at events and stalls, including at places of worship, community centres and events, conferences, business forums, London Luton Airport and the Mall in Luton.

Councillor Javeria Hussain, Chair of Luton Rising, said: “We are pleased to see so many people engage with the consultation and we will review every single piece of feedback over the coming weeks. Our proposals reflect the values, both of Luton Rising, and our sole shareholder, Luton Council. We want to maximise the social and economic benefits of growth and firmly believe there is a way to grow an airport in a sustainably responsible way. Our plans affirm a commitment to delivering these benefits directly to those local to the area.”

Graham Olver, Chief Executive of Luton Rising said, “We are grateful to everyone who gave their feedback in the consultation. Feedback is what holds us to account by ensuring our proposals are as good as they can be and will play a key role in ensuring we make the optimum Development Consent Order submission to the government later this year so I would like to personally thank every single person who engaged with us over the last few weeks.”

A wide range of views were provided in the consultation both for and against the proposals. These responses and suggestions for improvement are being analysed and considered as we finalise our application. Luton Rising will then submit an application to the Planning Inspectorate for a Development Consent Order (DCO). The DCO would provide consent to build, operate and maintain the scheme, and the decision about whether to grant the DCO will be made by the Secretary of State for Transport.

## **K8      Email to Stakeholders**

Future LuToN  
Making best use of our existing runway

**Statutory consultation**  
8 February – 4 April 2022

We are Luton Rising – the new trading name for London Luton Airport Limited, the company that owns London Luton Airport. We're holding a consultation on our plans to expand the airport, and we want to hear your views. This is your chance to have your say on our proposals to increase the capacity of the airport to 32 million passengers per annum, by building a second terminal and making best use of our existing runway.

We previously consulted on our proposals to expand the airport in late 2019, and have carefully considered all of the feedback we received. This feedback, along with other factors such as the impacts of Covid-19 on the aviation industry, led us to review our proposals and make some important changes which we want to share with you.

Visit our virtual consultation room, where you can find out more about our proposals and respond to the consultation online. We're also holding in-person events in the community, and making printed consultation documents available to view at multiple locations. Visit our website to find out more.

**Visit our website to view our materials,  
including our virtual consultation room,  
and to have your say**

**Why grow?**

The airport is a vital component of the local economy, supporting tens of thousands of jobs directly and indirectly. Expansion will create thousands more jobs for local people and an increase of over £1 billion in economic activity in the surrounding areas.

Sustainability is at the core of our values and we believe it is possible to grow an airport sustainably for the environment, society, and economy.

We recognise that this expansion can have impacts too. That is why we are proposing a new Green Controlled Growth framework. This will put limits on key environmental impacts, which will be both legally binding and independently monitored, to control airport growth and its impacts on the environment.

Our long-standing commitment to community support – 20 times more than any other UK airport – will be extended, including greater support for communities around the airport. We're putting forward a new fund we're calling Community First, this will provide funds directly to the most deprived areas in the region, and also help to finance local decarbonisation projects.

Programme Director, Luton Rising

2.1	Identifying hard-to-reach groups	4
2.2	Consultation launch	5
2.3	Targeted engagement	5

# 1 INTRODUCTION

## 1.1 Purpose of the document

- 1.1.1 Hard-to-reach, sometimes referred to as seldom heard, groups are groups within society that are typically under-represented in the planning process, including groups who have protected characteristics under the Equality Act 2010.
- 1.1.2 By contacting hard-to-reach groups, we aim to provide an equal opportunity for all people who may be affected by, or have an interest in, the project to understand the proposals and respond to the consultation.
- 1.1.3 This document sets out our approach to engaging with hard-to-reach groups during the statutory consultation on proposals to expand London Luton Airport, which is scheduled to take place between 8 February and 4 April 2022.
- 1.1.4 As the second statutory consultation will be held over two years after the previous, and as many people's lives have changed as a result of the impacts of Covid-19, we are taking a refreshed approach to identifying and engaging hard-to-reach groups.

## 1.2 Pre-application guidance and best practice

- 1.2.1 Section 47 of the Planning Act 2008 sets out our duty to consult the local community. The Planning Inspectorate's guidance on the pre-application process states:

*In consulting on project proposals, an inclusive approach is needed to ensure that different groups have the opportunity to participate and are not disadvantaged in the process. Applicants should use a range of methods and techniques to ensure that they access all sections of the community in question. Local authorities will be able to provide advice on what works best in terms of consulting their local communities given their experience of carrying out consultations in their area.<sup>1</sup>*

- 1.2.2 We should therefore undertake any additional activities needed so that no individuals or communities are disadvantaged in their ability to participate in the consultation process.
- 1.2.3 Further, the Gunning Principles set out four principles which, if followed, are designed to make consultation fair and lawful:
1. that consultation must be at a time when proposals are still at a formative stage;
  2. that the proposer must give sufficient reasons for any proposal to permit of intelligent consideration and response;
  3. that adequate time is given for consideration and response; and

---

<sup>1</sup> [Planning Act 2008: guidance on the pre-application process](#), p15 [accessed 26/08/2021]

4. that the product of consultation is conscientiously taken into account when finalising the decision.

1.2.4 The second gunning principle relates to hard-to-reach groups, as it states that the information provided must be available, accessible, and easily interpretable for consultees to provide an informed response.

## 2 APPROACH TO ENGAGING WITH HARD-TO-REACH GROUPS DURING THE 2022 STATUTORY CONSULTATION

### 2.1 Identifying hard-to-reach groups

- 2.1.1 The Equality Act 2010 sets out nine protected characteristics, which we will use as a basis for identifying the hard-to-reach groups that we will contact about the consultation.
- 2.1.2 An example of the types of groups and services we would aim to contact for each of the protected characteristics are:
- a. Age – local community groups for older people, charities working with older people e.g. Age UK, and schools, colleges and universities
  - b. Disability – local community groups and charities working with people with disabilities and mental health issues in the area
  - c. Gender reassignment – local LGBT+ groups and charities and local health services
  - d. Marriage and civil partnership – places of worship and local LGBT+ groups
  - e. Pregnancy and maternity – local antenatal and new baby groups and local health services
  - f. Race – BAME community groups and traveller communities
  - g. Religion or belief – places of worship
  - h. Sex – local women’s and equality charities
  - i. Sexual orientation – local LGBT+ groups and charities
- 2.1.3 To identify the relevant hard-to-reach groups and stakeholders we will:
- a. Review the responses to the 2019 statutory consultation and the 2018 non-statutory consultation to find any hard-to-reach organisations that responded previously
  - b. Work with the Equality Impact Assessment team on the project to understand what groups their work to date has uncovered
  - c. Request up-to-date lists of hard-to-reach groups from the host and neighbouring local authorities
  - d. Carry out desktop research to find groups who could be impacted by the project or have an interest in the proposals
- 2.1.4 We will compile a stakeholder database of these identified hard-to-reach groups, including contact details.
- 2.1.5 We will then invite representatives from community engagement teams at host local authorities to a workshop to discuss our approach for engaging hard-to-reach groups and share details of who we intend to consult. This will provide an opportunity for local authorities to suggest additional groups to contact and ways to engage.

## 2.2 Consultation launch

- 2.2.1 At the launch of the statutory consultation, we will send out an email to each of our hard-to-reach contacts with an overview of the consultation and the deadline for responding. The emails will also include links to view and download the consultation materials on our website, as well as a link to complete the response form.
- 2.2.2 We will encourage our contacts to respond to the email if they would like any further information or alternative copies of consultation materials that could help the group to engage with the consultation. We will also request that details of the consultation are shared in any relevant newsletters or social media pages to help reach a wider audience and will offer to provide text for them to use if needed.
- 2.2.3 In the second and third week of the consultation, we will telephone each of the hard-to-reach groups to check that they have received our email/direct mail leaflet (if they are within the consultation zone) and to offer additional information and alternative copies of materials. We will call each group three times to offer support and records of outcomes will be kept as evidence for our DCO application.

## 2.3 Targeted engagement

- 2.3.1 In addition to the approach outlined above, we will undertake targeted engagement for some hard-to-reach groups to ensure that they have a fair opportunity to get involved with the consultation.

Group	Method	Description
Minority groups	Promotional packs	We will identify key locations, such as community centres and places of worship, in wards within the newsletter mailing zone that have a diverse population. We will send promotional packs with posters and will encourage the venues to display these.
People with disabilities	Home library service	We will provide printed copies of consultation documents to the Luton Home Library Service so that people who are not able to visit document inspection venues or events can, on request, receive printed copies of the materials at home alongside other books.  We will also consider all requests for printed and alternative format copies of consultation materials. These can be made by calling, emailing, or writing to the project team.

Traveller communities	Newsletter	We will draw on the expertise of local authorities to help ensure that, where possible, traveller communities within the newsletter mailing zone receive a printed or digital copy newsletter to advertise the consultation and events.
Young people	Promotional packs	We will contact schools, colleges and universities within the host local authorities and newsletter mailing zone to share promotional packs to advertise the consultation to students.
Working families	Consultation event timings	We have scheduled face-to-face consultation events for both evenings and weekends, as well as during the day, to ensure that working families have an opportunity to attend. The virtual consultation platform will also be available to access 24/7.
Rural communities	Parish council engagement	We will contact parish and town councils within the newsletter mailing zone to share promotional packs and encourage them to advertise the consultation to residents.
All	Digital information	Social media and promotional campaign to capture a variety of local groups.

## **K11      Email to hard to reach groups**

Future LuToN  
Making best use of our existing runway

**Statutory consultation**  
8 February – 4 April 2022

We are Luton Rising – the new trading name for London Luton Airport Limited, the company that owns London Luton Airport. We're holding a consultation on our plans to expand the airport, and we want to hear your views. This is your chance to have your say on our proposals to increase the capacity of the airport to 32 million passengers per annum, by building a second terminal and making best use of our existing runway.

We previously consulted on our proposals to expand the airport in late 2019, and have carefully considered all of the feedback we received. This feedback, along with other factors such as the impacts of Covid-19 on the aviation industry, led us to review our proposals and make some important changes which we want to share with you.

**As an organisation that represents seldom heard groups that are often under-represented in public consultations, we want to make you aware of this consultation and offer you support to share information with your network. If you have any questions or would like to request printed copies of our consultation brochure and response form, or discuss options for viewing our materials in alternative formats, please don't hesitate to get in touch with us on our contact details below.**

We're running a virtual consultation room throughout the consultation period, which will provide further details about our proposals and the opportunity to respond to the consultation online. We're also holding in-person events in the community, and making printed consultation documents available to view at multiple locations. More information can be found by visiting our website below.

**Visit our website to find out more about  
our proposals and visit our virtual  
consultation room**

**Why grow?**

The airport is a vital component of the local economy, supporting tens of thousands of jobs directly and indirectly. Expansion will generate thousands more jobs for local people and an increase of over £1 billion in economic activity in the surrounding areas.

Sustainability is at the core of our values and we believe it is possible to grow an airport sustainably for the environment, society, and economy.

We recognise that this expansion can have impacts too. That is why we are proposing a new Green Controlled Growth framework. This will put limits on key environmental impacts, which will be both legally binding and independently monitored, to control airport growth and its impacts on the environment.

Our long-standing commitment to community support – 20 times more than any other UK airport – will be extended, including greater support for communities around the airport. We're also putting forward a new fund we're calling Community First, this will provide funds directly to the most deprived areas in the region, and also help to finance local decarbonisation projects.

Thank you very much for the valuable part you are playing so that as many people as possible are informed, and can have their say, about these important proposals.

Programme Director, Luton Rising
