Regulations 2009**

**London Luton Airport Expansion Development Consent
Order 202x**

1.02 APPLICATION FORM

Regulation number:	Regulation 5(1)
Planning Inspectorate Scheme Reference:	TR020001
Document Reference:	TR020001/APP/1.02
Author:	Luton Rising

Version	Date	Status of Version
Issue 1	February 2023	Application issue

Application for Development Consent for Nationally Significant Infrastructure Projects under the Planning Act 2008

* required information

Application Form

Please read guidance documents relating to the submission of applications prior to completing this form including [government guidance](#) and the Planning Inspectorate's [Advice Note Six: Preparation and submission of application documents](#).

* Do you have a reference number?

Yes No

* Reference number

1. Applicant

* Organisation

Address

* Building number or name

* Street

* City or town

County or administrative area

* Postcode

* Country

* Name of contact

* Telephone number

Fax number

* Email

2. Agent

* Are you an agent acting on behalf of the Applicant?

Yes No

3. Fee

* State the arrangement for the application fee payment:

BACS CHAPS Cheque

* Please provide payment reference details

Continued from previous page...

4. Confirming why the Planning Inspectorate should receive the application

* Brief statement to explain why this application is, or is to be treated as, a development for which development consent is required under the Planning Act 2008

The Proposed Development is a nationally significant infrastructure project (NSIP) for the purposes of the Planning Act 2008 (the Act). This is because the Proposed Development relates to airport development (section 14(1)(i) of the Act), specifically either the alteration of an airport in England or an increase in the permitted use of an airport (section 23(1)(b), (c) and (4)(a) of the Act).

Development involving such an alteration is only an NSIP if it is expected to have the effect specified in section 23 (5) (in the case of an alteration to an airport) and (8) (in the case of an increase in the permitted use of an airport) of the Act. The relevant effect for this development is that it increases by at least 10 million passengers per year the number of passengers for whom the airport is capable of providing passenger transport services. The existing permitted use of the airport is capped at 18 million passengers per annum (mppa). The Proposed Development will result in a development in excess of that threshold. Therefore, the Proposed Development is an NSIP.

5. Non-technical description of the Proposed Development

* Brief non-technical description of the Proposed Development

The Proposed Development builds on the current operational airport with the construction of a new passenger terminal and additional aircraft stands to the north east of the runway. This will take the overall passenger capacity from 18 million passengers per annum (mppa) to 32 mppa.

In addition to the above, and to support the initial increase in demand, the existing infrastructure and supporting facilities will be improved in line with the short-term requirements for additional capacity.

Key elements of the Proposed Development include:

- (i) Extension and remodelling of the existing passenger terminal (Terminal 1) to increase the capacity;
- (ii) New passenger terminal building and boarding piers (Terminal 2);
- (iii) Earthworks to create an extension to the current airfield platform; the vast majority of material for these earthworks would be generated on site;
- (iv) Airside facilities including new taxiways and aprons, together with relocated engine run-up bay and fire training facility;
- (v) Landside facilities, including buildings which support the operational, energy and servicing needs of the airport;
- (vi) Enhancement of the existing surface access network, including a new dual carriageway road accessed via a new junction on the existing New Airport Way (A1081) to the new passenger terminal along with the provision of forecourt and car parking facilities;
- (vii) Extension of the Luton Direct Air to Rail Transit (Luton DART) with a station serving the new passenger terminal;
- (viii) Landscape and ecological improvements, including the replacement of existing open space; and
- (ix) Further infrastructure enhancements and initiatives to support the target of achieving zero emission ground operations by 2040*, with interventions to support carbon neutrality being delivered sooner including facilities for greater public transport usage, improved thermal efficiency, electric vehicle charging, on-site energy generation and storage, new aircraft fuel pipeline connection and storage facilities and sustainable surface and foul water management installations.

*This is a Government target, for which the precise definition will be subject to further consultation following the Jet Zero Strategy, and which will require further mitigations beyond those secured under the DCO.

6. Location or route of the Proposed Development

* Description of location of application site(s), or route of development (reference to appropriate plans)

The Proposed Development is located at the existing site of London Luton Airport in the Luton Borough, bordering

Continued from previous page...

North Hertfordshire and Central Bedfordshire in the south east of the United Kingdom (UK). The location of the Proposed Development is shown on the Location Plan [TR020001/APP/4.01].

* Is the site a single site or a linear site?

- Single site Linear site

19. Matters set out in section 79(1) (statutory nuisances etc) of the Environmental Protection Act 1990

* Statement required for this application:

Yes

No

Continued from previous page...

* Document reference

20. A plan with any accompanying information identifying any Crown land

* Issues are relevant for this application:

Yes No

* Document reference

21. A plan identifying new or altered means of access, stopping up of streets or any diversions, extinguishments or creation or rights of way or public rights of navigation

* Issues are relevant for this application:

Yes No

* Document reference

22. Additional information for specific types of infrastructure

* Additional information is required to be submitted in accordance with Regulation 6 of The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009:

Yes No

23. Any other plans, drawings and sections necessary to describe the proposal for which development consent is sought, and any other documents, reports or information to support the application

Provide a brief description of any other plans, drawings and sections that are being submitted with this application

Location Plan [TR020001/APP/4.01]
Scheme Layout Plan [TR020001/APP/4.02]
General Arrangement Drawings [TR020001/APP/4.09]
