1 INTRODUCTION

1.1 Purpose of this document

The Application Document Tracker (Table 1.2 at page 3) provides a full list of application documents submitted to date and will be used as a ‘living document’ during examination, capturing all updates and revisions to the application documents. For ease of reference the documents are grouped by Volumes and colour coded accordingly. The Planning Inspectorate (PINS) reference column in Table 1.2. below will not be listed until this document is updated during examination, as these references only become known following submission of the Application. All application documents are noted as Issue 1 at submission and will be updated accordingly if revisions are required.

Documents coloured light green are the latest version.

Documents greyed out have been superseded.

1.1.1 For ease of navigation these documents are grouped by volumes as follows (note the colours continue throughout on the document covers):
