Dear Sirs.

We generally support plans to expand Luton airport with one notable exception:

Bus connections from Hertfordshire are NON EXISTENT and need to improve drastically to handle proposed traffic levels from the populous Lea Valley towns in particular and provide a direct link to TFL rail and bus services. This should be a panning condition for any consent.

We attach a suggested map and timetable to address this shortfall, before the cut off date of June 30th.

We also attach a historic timetable as this was tried back in the 1980s albeit when the airport was much smaller.

Regards

Paul Spelzini for South Herts User group
