Subject: Luton Airport Expansion

Categories: Deadline, EO Rammiel

Hello

Still totally against the expansion of Luton Airport as it is not needed.

We are already having to put up with noise early in the morning with planes taking off and landing, we do not need more, and also during the night.

If this does go ahead I hope the council are going to sound proof our residences to stop the extra noise.

Most of the jobs will be filled by people who do not live in Luton therefore causing traffic chaos on the roads and will not benefit the residents of Luton.

The only thing it will do will be to fill the councils pockets, and I doubt we will see any benefits.

I doubt this will be stopped though as the government does not seem to care about what the people think and will just plough ahead, hopefully it will run out of money like HS2 has.

Kind regards

David Manning
