## Hearing Agendas

The Agendas and any detailed arrangements for the Hearings will be published on the [project webpage](#) at least five working days before the Hearings. However, the actual Agenda on the day of each Hearing may be subject to change at our discretion.

## Procedure at Hearings and Post Hearing submissions

The procedure to be followed at Hearings is set out in The Infrastructure Planning (Examination Procedure) Rules 2010.

Participation in a Hearing will be subject to the ExA's powers of control. It is for the ExA to determine how the Hearing will be conducted, including the time allowed at the Hearing for the making of a person's representations. The Hearing will be managed in the interests of ensuring fair access to the Hearing for all parties, and to ensure that the submissions of all invited persons are fully heard within the allotted time. For Issue Specific Hearings Interested Parties may be invited to make oral representations at the Hearing on the specific issues being examined at the Hearing as set out in the Agenda.

All Hearings are recorded. The recordings and transcripts will be made available on the project webpage as soon as practicable following the Hearing. The recordings allow anyone who is interested in the application and the Examination to find out what has been discussed at a Hearing. It is therefore important to note that anyone speaking at the Hearing will need to introduce themselves, including any organisation or groups that they represent, **each time they speak** to ensure that someone listening to the recording after the Hearing is clear who was speaking.

As the recordings are retained and published, they form a public record that can contain personal information to which the General Data Protection Regulation applies. Please refer to our [Privacy Notice](#) for further information. Participants must do their best to avoid making public any information which they would otherwise wish to be kept private and confidential. If there is a need to refer to such information, it should be in written form. Although this will also be published, personal and private content can be redacted or removed before it is made publicly available. Any person who is unclear on this point should ask the Case Team for guidance before they place personal and private information into the public domain. The Planning Inspectorate's practice is to publish the recordings and transcripts and retain them for a period of five years from the Secretary of State's decision on the Development Consent Order. If you actively participate in the Hearing, it is important that you understand that you will be recorded and that the recording and transcript will be made available in the public domain.

The evidence presented orally at Hearings should be included in post Hearing submissions and submitted at the relevant deadline in the Examination timetable.

As stated at Issue Specific Hearing 6, and in the [Rule 17 letter of 3 October 2023](#), the ExA has decided that it does not need to conduct an Accompanied Site Inspection.

If you have any further queries, please do not hesitate to contact the Case Team

Yours faithfully
