

Wigmore Valley Park WR D4. A summary of less than 2000 words

SLAE's Wigmore Valley Park Written Representation reflects the importance to those that love the park and the passion to keep the park 'as is' that the submission is over 16 pages in length.

To assist the Examining Authority, SLAE have identified the following areas in this Written Representation that require further inspection.

SLAE also recognise from previous submissions that LR will respond to questions asked by SLAE by referring to the very same documents that the questions arose from.

SLAE would like to thank whoever has been litter picking in Wigmore Valley Park for keeping the park clean and tidy recently and SLAE hope that this continues long in the future once the PI examiners have finished.

Introduction

The Wigmore Valley Park submission covers the following topics in the full Written Representation submission.

- Wigmore Valley Park Introduction
