1 INTRODUCTION

1.1 Purpose of this document

The Application Document Tracker (Table 1.2 at page 3) provides a full list of application documents submitted to date and will be used as a ‘living document’ during examination, capturing all updates and revisions to the application documents. For ease of reference the documents are grouped by Volumes and colour coded accordingly. The Planning Inspectorate (PINS) reference column in Table 1.2. below will not be listed until this document is updated during examination, as these references only become known following submission of the Application. All application documents are noted as Issue 1 at submission and will be updated accordingly if revisions are required.

Documents coloured light green are the latest version.

Documents greyed out have been superseded.

1.1.1 For clarity documents submitted at this deadline are in **bold**. Only the changes made at this deadline are described in the final column of Table 1.2 – reference should be had to previous iterations of this document for a summary of changes made at previous deadlines.

1.1.2 For ease of navigation these documents are grouped by volumes as follows (note the colours continue throughout on the document covers):
