You don't often get email from [REDACTED]@live.co.uk. [Learn why this is important](#)

Good Morning,

[REDACTED], Martin Farrell [REDACTED] received a letter yesterday regarding the Luton airport expansion. This letter invites comments from residents regarding the expansion.

He would like to say the following:

"I live underneath the flight path for Luton Airport. Currently, the noise is just about bearable. I am concerned that an expansion and/or rise in flights over my property will be not only detrimental to my health but to my property. I suffer from severe asthma, COPD, and various other heart and lung issues. The increase in pollution is a concern for me. Furthermore, when flights go over the house, the house physically vibrates. My front door rattles and my windows have deteriorated. I have lived in this house for nearly 45 years. Under the flight path the entire time and have no doubt the airport has contributed to the above issues with my health and my property. I am not necessarily against the expansion but I would like something to be done to at least remedy the problems the airport has created for me over the last few decades ie assist me with doors/windows for the predicted increase with noise and vibrations".

Kind Regards

Erin Farrell on behalf of Martin Farrell
