You don't often get email from [REDACTED]@hotmail.co.uk. [Learn why this is important](#)

Dear Inspectorate

I would like to add my comments and observations which I feel have a bearing on the proposed expansion.

My eligibility to comment is that I still live in the same property as I was born into over 72 years ago. This property is in East Hatley which is directly under the path of approach to Luton airport.

Since the major change of aircraft lanes into Luton, during the difficult time we all had in covid, the increase in invasive aircraft- originated noise has been out of all proportion to that before. This is mostly due to comparatively low level manoeuvres which I don't know the technical terms for but include I think tight turns, possibly including rapid loss of altitude and rapid aircraft slowing. These result in various noises which are intrusive.

I wonder why these course corrections can't be achieved at a higher altitude where they would be of little interest to me or I suspect anyone else.

The thought of these incidents occurring at approaching twice the current rate is not conducive to the peaceful retirement I had anticipated in my little rural Cambridgeshire village.

May I bring to your attention to the difficulty to comment on this and all the past changes for an older and not very computer literate resident of the affected area. The original change of I think 2020 was particularly unfair when many of us had other life changing problems to cope with.

Yours sincerely
Thomas Andrew Hood
