[REDACTED]

Dear Sirs

No doubt that whatever way the decision goes for the airport expansion there will still be an airport.

Therefore can we ask that all night flights are cancelled in line with other London airports. This would then be a god send for a good night's sleep.

It is not the majority of people of Luton that suffer any noise pollution but us in the villages along the flight paths.

Also I would like to make a point about dispersal of people from the airport. Between 6.00am and 8.00am a lot flights take off and return around lunch time. There is then a quite period before another busy period in the early evening. This means bottle necks occur when other people are trying to catch trains and surely must overload the railway system who in rush hour times they cannot cope now.

Yours

Vic Meakes
