

# Opposition to Cargo Night Flights From Manston Airport

Here you should summarise the aspects of the application you agree and/or disagree with and say why. Outline what information, local knowledge or evidence you have which supports this. Please aim to limit this section to no more than 500 words (please use extra paper if needed).

Date 30-9-2018

Ramsgate - has a heavily built up area with residential properties extremely close to the airport boundaries and under flight paths, previous aircraft vibration has caused reported damage to roofs and tiles. At least 4 schools are under or very close to flight paths.

Transport - The approach roads to the airport are not suitable for constant heavy traffic i.e. Lorries and Tankers of fuel and will greatly add to the congestion on our present local roads.

Sleep Deprivation and Health - Constant noisy aircraft causing disruption to sleep would result in health problems for all age groups both physically and mentally with children and babies being in danger of their development being affected. Health reports have already highlighted this problem.

## Pollution and noise

The increased noise of aircraft taking off and landing can be clearly heard from our homes and at night would be much louder. Air pollution from fumes are one of my worries as I believe this could have an extreme detrimental effect on chest and asthma sufferers, myself included. Medical Reports have already highlighted this problem.

Please check that you have completed all relevant sections, otherwise you may not be able to take part in the later stages of the examination.

Continuation - Pollution and Noise -

Increased pollution and noise on such an increased scale caused by constant night flights is contrary to today's enlightened thinking on the environment and pollution.

It would also have dire consequences for our standing as a coastal resort and the businesses dependant upon this, other coastal resorts within a certain radius of the airport would also be simitarly affected
