PINS RECEIVED

13.01.2019

Dear Sirs for many years I spent
travelling around our country chasing work as
there wasn't much employment in the area & surrounding
area. I believe with more support reopened
as a freight hub and passenger service etc,
Threat for years has been a black spot for unemployment
I believe this is a great chance for our community to
be lifted out of this unemployment black spot and
the people of Threat can hold our heads up high
again. I travel 60 miles away from home for
minimum wage, so Sirs I'm asking you all please
give Threat this chance and the people of Threat
can lift their heads up high and be proud of our
area again as well as our childrens children.
Thank you for taking time to read this,

Yours Sincerely
