To: Planning Inspectorate Manston Airport Case Team

Re: my reference, 20014168

Unfortunately, I was unable to attend the meetings held in Margate recently regarding the RSP application for a DCO for the airport. Although it will not make any difference either way regarding a decision, nor is it of any importance to you, but something was said at one of the meetings which I just cannot ignore as it was factually wrong. Although my letter does not require a reply from you, should you need to, my email address is [REDACTED]

[REDACTED] publicly pointed out at one of the meetings that he had been voted in again because of the strength of support to retain the airport. This is completely untrue. He has had a safe seat since 1983 and it would appear that no matter what transpires or how little he does for his area of North Thanet, he always remains there. Locally he is known as [REDACTED] for Riveroak, which in his own words is a badge of honour he wears with pride.

For me, more to the point is that Manston Airport is not even in his constituency, but in South Thanet. I just wanted to set the record straight.

With my regards to you

[REDACTED]

Ann Burrows
