**Subject:** Re: Re-opening Manston Airport Kent  
**Date:** 23 January 2019 10:34:31

---

Thank you for your help. We have a new Apple MacBook Air and are not quite familiar with it!! Here is our submission:-

We would like to see Manston Airport returned to a working aviation centre to provide sorely needed extra capacity for both airfreight and passengers. A case is currently being made for the further expansion of facilities at both Gatwick and Heathrow Airports to serve an identified growing need. This expansion will cause disruption to their surrounding areas and will take sometime to achieve, if it proves possible at all. A ready made proven airport facility currently stands idle at Manston and this could be made operational with minimum cost and disruption by reinstating the facilities which have been removed by the current owners.

A benefit of the installation of new replacement equipment would of course provide an airport with 'state of the art' facilities. Manston is ideally placed geographically for ease of access to the continent and is well connected to the national motorway system. The proposed new Thames Crossing linking the M2 to the road network to the East of the country would ease pressure on the M25 which would be increased by any expansion of both Heathrow and Gatwick which predominantly serve the area to the West and Southwest of London.

Airfreight via Manston would also relieve pressure on imports and exports through the Port of Dover and the already congested M20 and the M2 Dover to Canterbury Road.

The use of Manston for passenger flights would allow far easier access for the people of South East England to air travel - current journeys to Gatwick/Heathrow are virtually impossible by public transport and involve at least two hours road travel.

As well as providing employment directly linked to the airport, Manston would make the local area (a current National Employment blackspot) much more attractive to both National and International employers. This would particularly benefit the young people of the area whose employment prospects at present are extremely limited. Please see the attachment at [REDACTED] heading 'Kent Unemployment November 2018', line 3 'Thanet has the highest unemployment rate at 5.2%' and line 5 'Thanet had the highest 28-24 year old unemployment rate in the South East at 8.1%'. Also heading 'Unemployment in Kent ' updated 11th December 2018 - Unemployment by age group per cent of all unemployed November 2018 18-24 number 4,270% of all unemployed 21.5 per cent. Please also see graph and Ward map contained therein: source: ONS Claimant Count presented by Strategic Commission Analytics Kent County Council.

The alternative proposal of building housing on such a valuable National Asset as an Airport would add nothing to the local area. There are already numerous housing developments in the area which are putting additional pressure on the employment market and facilities such as education and especially health care and our local hospitals.

The reopening of Manston as a working airport will bring much needed employment opportunities for existing residents, the space for further capacity in the future and provide a vehicle for the future economic expansion of the whole of Thanet and East Kent generally.

Manston Airport is a vital National Asset which must be preserved.

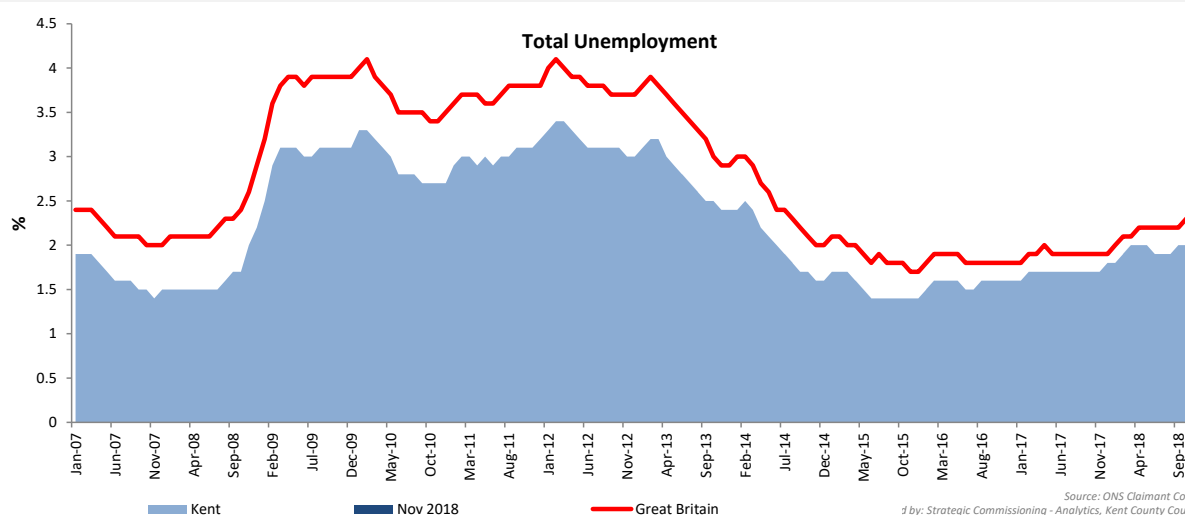

Thank you  
Susan and John Hennessy

# Unemployment in Kent

Last updated: 11 Dec 2018

Using information from the Office for National Statistics Claimant Count this bulletin looks at the total number of people claiming either Jobseekers Allowance or Universal Credit **principally for the reason of being unemployed**. It also looks at the age profile of claimants, in particular at youth unemployment which is defined as those aged 18 to 24.

## Ward unemployment rates November 2018

Source: NOMIS Claimant Count  
This map is produced by Strategic Commissioning - Analytics, Kent County Council  
© Crown Copyright and database right 2018, Ordnance Survey 100019238

This workbook looks at the total number of people claiming either Jobseekers Allowance or Universal Credit principally for the reason of being unemployed. It also looks at the age profile of claimants, in particular at youth unemployment which is defined as those aged 18 to 24.

**This workbook uses information from a dataset called The Claimant Count by Sex and Age. This experimental series counts the number of people claiming Jobseeker's Allowance plus those who claim Universal Credit who are out of work. The dataset currently includes some out of work claimants of Universal Credit who are not required to look for work; for example, due to illness or disability. Therefore this dataset is considered experimental and the results should be interpreted with caution.**

Unemployment rates are calculated using the Office for National Statistics Mid-year Population Estimates 2001-2017. The resident working age population is defined as all males and females aged 16-64. These denominators will be updated annually with the ONS mid-year population estimates.

**Data back to December 2014 were revised by ONS on 18th October 2017. This bulletin contains these revisions and therefore supersedes any previously released data.**

### Introduction of Universal Credit

Since 2013 the roll out of Universal Credit has progressed across across the UK. Universal Credit will replace a number of means-tested benefits including the means-tested element of Jobseeker's Allowance (JSA).

From April 2015 Universal Credit started to be rolled out within Kent. It is now available in all Jobcentre areas in Kent & Medway. Initially it was only available to single claimants without a partner and without child dependents however in 2017 the full roll out of Universal Credit to all claimant types began. The following table shows the planned roll out within Kent districts.

As announced in June 2018 the government will start to migrate existing claimants of the benefits that are being replaced to Universal Credit early in 2019. It hopes to migrate all existing benefit claimants to Universal Credit by March 2023.

| <b>Date of roll out</b> | <b>Job Centre Plus Office</b> | <b>District Served</b> |
