In Favour of the reopening of Manston Airport

I am seriously behind the reopening of Manston Airport, as a Cargo & Passenger facility, the reasons are listed below.

- 1/ The most important reason is, the permanent Jobs that it will create, as you may be aware, Thanet is one of the highest black spots in the U.K. for Jobs.
- 2/ Thanet cannot withstand the amount houses proposed for this site, we have not the roads, the water, schools, Doctors, to list but a few.
- 3/ Pollution from the 4000 cars, at the very least, will be far greater than the amount, of Cargo and Passenger Aircraft that will fly into Manston.
- 4/ There has been an Airport at Manston since 1915, so why do we want to change that.
- 5/ The Airport has links to the Thanet Way, so freight traffic will not congest the roads around Ramsgate, Margate or Broadstairs, plus, you have a Railway line linking to a Highspeed line, for future investment, for passengers to catch a Train from inside a terminal, also for freight to be loaded on to wagons, ie freightliner Trains.

I end by, just asking, please give it a chance, RiverOak Strategic Partnership have the money to invest, in the Airport, to make Thanet great, this is not Government money, this is private money.

What have we got to loose, if we build 4000 houses on this site that is it, end of Manston Airport

GIVE IT A CHANCE.
