---

I wish to affirm my support for RiverOak Stratigic Partners Ltd. in their DCO Application to reopen Manston Airport.

RiverOak have set out a very comprehensive plan, detailing every aspect that they would like to achieve in this application. First and foremost are the jobs that would be created. Thanet is in desperate need of employment as most of the jobs here are poorly paid, part time and unskilled. An airport would open up many affiliated businesses and it would be a boost to the local economy. Education and training are an important factor and cooperation with local businesses and education facilities would lead to more skilled and well paid employment. Tourism would also benefit from the increased activity.

I believe it is in the national interest, and of great importance, to have an airport up and running in this part of the south east and that it would benefit the country as a whole with increased airport capacity.

Yours,

Catherine Bunce
