To whom it may concern,

I am sending this email with the intention of putting my view regarding Manston Airport. I am a firm believer that an airport is what it should remain. I believe that Ms Gloag brought the airport with absolutely no intent of running it as an airport and saw the pounds signs with regards to developing the land for other purposes, prime land with fairly good transport links.

I believe the airport could be a huge success in the right hands, it would offer jobs from the outset, and as the airport develops so will the jobs. Skills will be learned and our children's future will be secured.

More housing may bring more jobs from the outset but once the houses are built then what? A strain in our hospital which is struggling now, schools are over full surgeries are short of G.P.S and you kind find a dentist anywhere in thanet.

The airport will bring jobs, tourism, a safety net for planes coming in from Europe who may need help in emergencies and when the London airports are struggling due to some kind of emergency. Smaller flying school business can return along with search and rescue etc.

Manston Airport is vital for Thanet it will give us a future, it will also help when we leave Europe especially with the French ports holding us hostage on deals, freight can come via air and a lot quicker.

Regards
Sherie Jacques
