Subject: Re: Updates for Manston Airport

Dear PI

I still await reply from sec of state for health. Information Commissioner will be examining Thanet Council history, of Freedom of Information responses re Environmental Hazards to Health on 20th May. In the meantime I have updated FOIs to request TDC review taking into account their submission to your process and their current review of contaminated land strategy

I think the threat Manston represents, and has represented for many years, to Thanet water supply would be fatal to the Riveroak application

I think no development at Manston can be consented until environmental hazards to health are fully addressed. That is the direct threat to water supply TDC now acknowledge> Plus the cumulative impact and precautionary principle issues that are also absent from the scope of the Riveroak application

Because of [REDACTED] I cannot attend the hearing re other environmental issues

If there is an update from Dept of Health, from Chief constable, from Information Commissioner or indeed from TDC I will send it to you

Kind regards Richard
