Hi Richard

Yes please and obviously the Inspectorate would be concerned at claims of financial information being available when it is not.

Please advise next steps.

Tim

Dear Mr Garbutt

Can you please clarify your intention in copying-in the Planning Inspectorate to this chain of correspondence?

Is it your intention that these emails are into the examination?

Kind regards

Richard Price

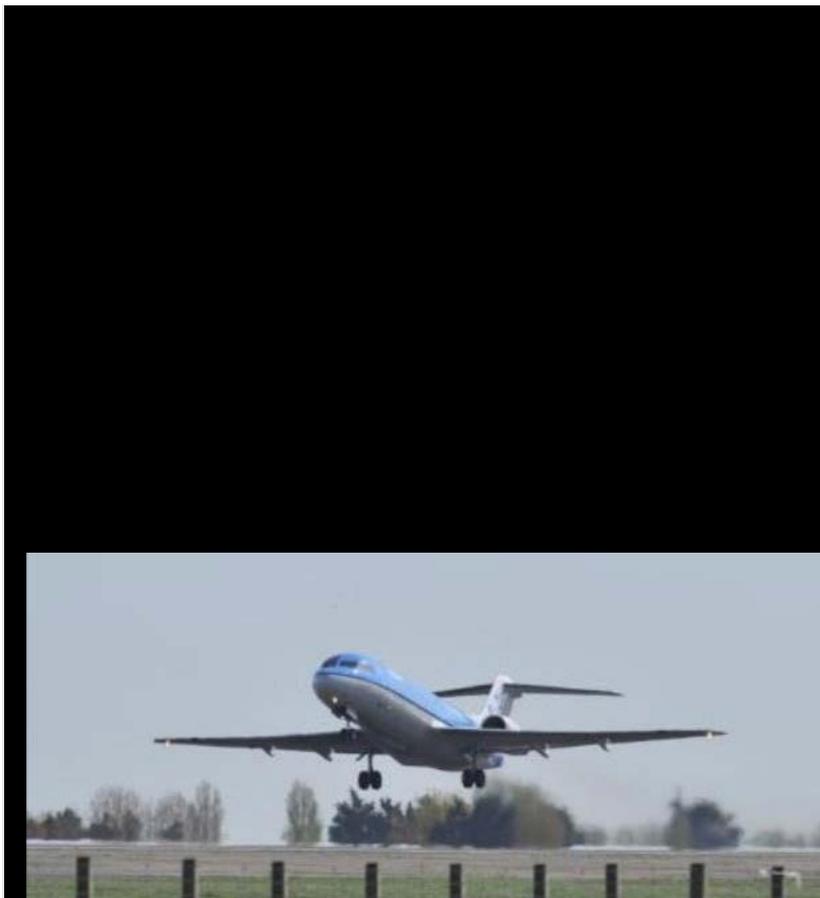

NI Case Manager – The Planning Inspectorate

FYI: vigorous Planning Inspectorate concerns over Helix etc financing at very first meeting.

[Inspectors' doubts over funds for airport bid](#)

**Inspectors' doubts over funds for airport bid**

Fresh doubts have been raised by inspectors looking at the financial backing for plans to reopen Manston Airport.

Can you clarify please.

Also public claw back of costs involved in responding to DCO etc.

Reminder #1 as DCO hearings open today and it seems the explanatory Helix letter on how Riveroak is financed is not included in the public document.

Can you forward please as clearly that's of significance with Swiss/Belize tax haven roles.

Hi Nick

Thanks for your reply: can you clarify your role at Helix and in the DCO?

I'm unclear why you are surprised at myself and the public, and police, participating in the DCO by requesting information of yourself. Especially given previous issues at Manston and media coverage.

Can you advise on the questions I've raised that are unanswered and provide any documents you think relevant to support your view. Helix directors are also available media and public questions?

Could you also clarify that you understand the East Kent drinking water is underneath the runway and there are missing Infratil/Stagecoach fines.

Dear Mr. Garbutt,

I am surprised by your e-mail if you are standing for Parliament as you should understand the public process that is a DCO.

I further do not understand your reasoning for copying your e-mail to various persons of the Kent police.

As with this public process all documentation and submissions have been provided to the Public Examiner and this has all been disclosed on their website. This fully discloses our involvement and where UK residents are involved are all fully disclosed to HMRC.

Finally, as you are aware there are the public hearings all of next week which all interested parties and the public in general may attend. If you cannot attend I believe that it is fully recorded and again made available on the Public Examiners web site.

Regards

Nick Rothwell

**Betreff:** Claudia Thalmann Helix corp: Manston airport and Riveroak public inquiry

Hi Claudia

I wanted to write to you as Helix Compliance Officer about your role/investment in Riveroak for Manston airport in Kent.

I am standing for Parliament in the area and there is concern over the process and public inquiry eg recent news link below:

<https://theisleofthanetnews.com/2019/05/27/manston-dco-hot-topic-of-compulsory-acquisition-scheduled-for-resumed-hearings/>

<https://www.helixfiduciary.com/profiles/claudia-thalman/>

I presume there is no wrong doing in Riveroak funded via Belize, BVI, Delaware and now Switzerland with your firm Helix. Confusing perhaps via tax havens without full details of directors etc.

Can you confirm your involvement and funds etc and any documents/emails provided to Riveroak/Planning Authority etc.

Kent Police/NCA/Parliament copied for their information as Manston has already featured in various Parliament investigations and news reports since it closed in 2014 and previously with Wiggins/Riveroak staff.

In my opinion it is a junk project and should be compulsorily purchased for one penny by the council for transparent review.

Please advise.

Many thanks.

Tim
