Dear Sir/Madam,

I would like to put forward my concerns once again regarding the negative consequences should the plans for this cargo hub go ahead. Please find attached a copy of the noise contour map indicating how few properties would receive any sort of compensation for what they will be put through.

RSP evidently want a bargain as it's obvious they don't have the funding. They have zero regard for the community they will be affecting and find their promise of compensation laughable. I feel this map is further evidence that RSP should never be granted their request.

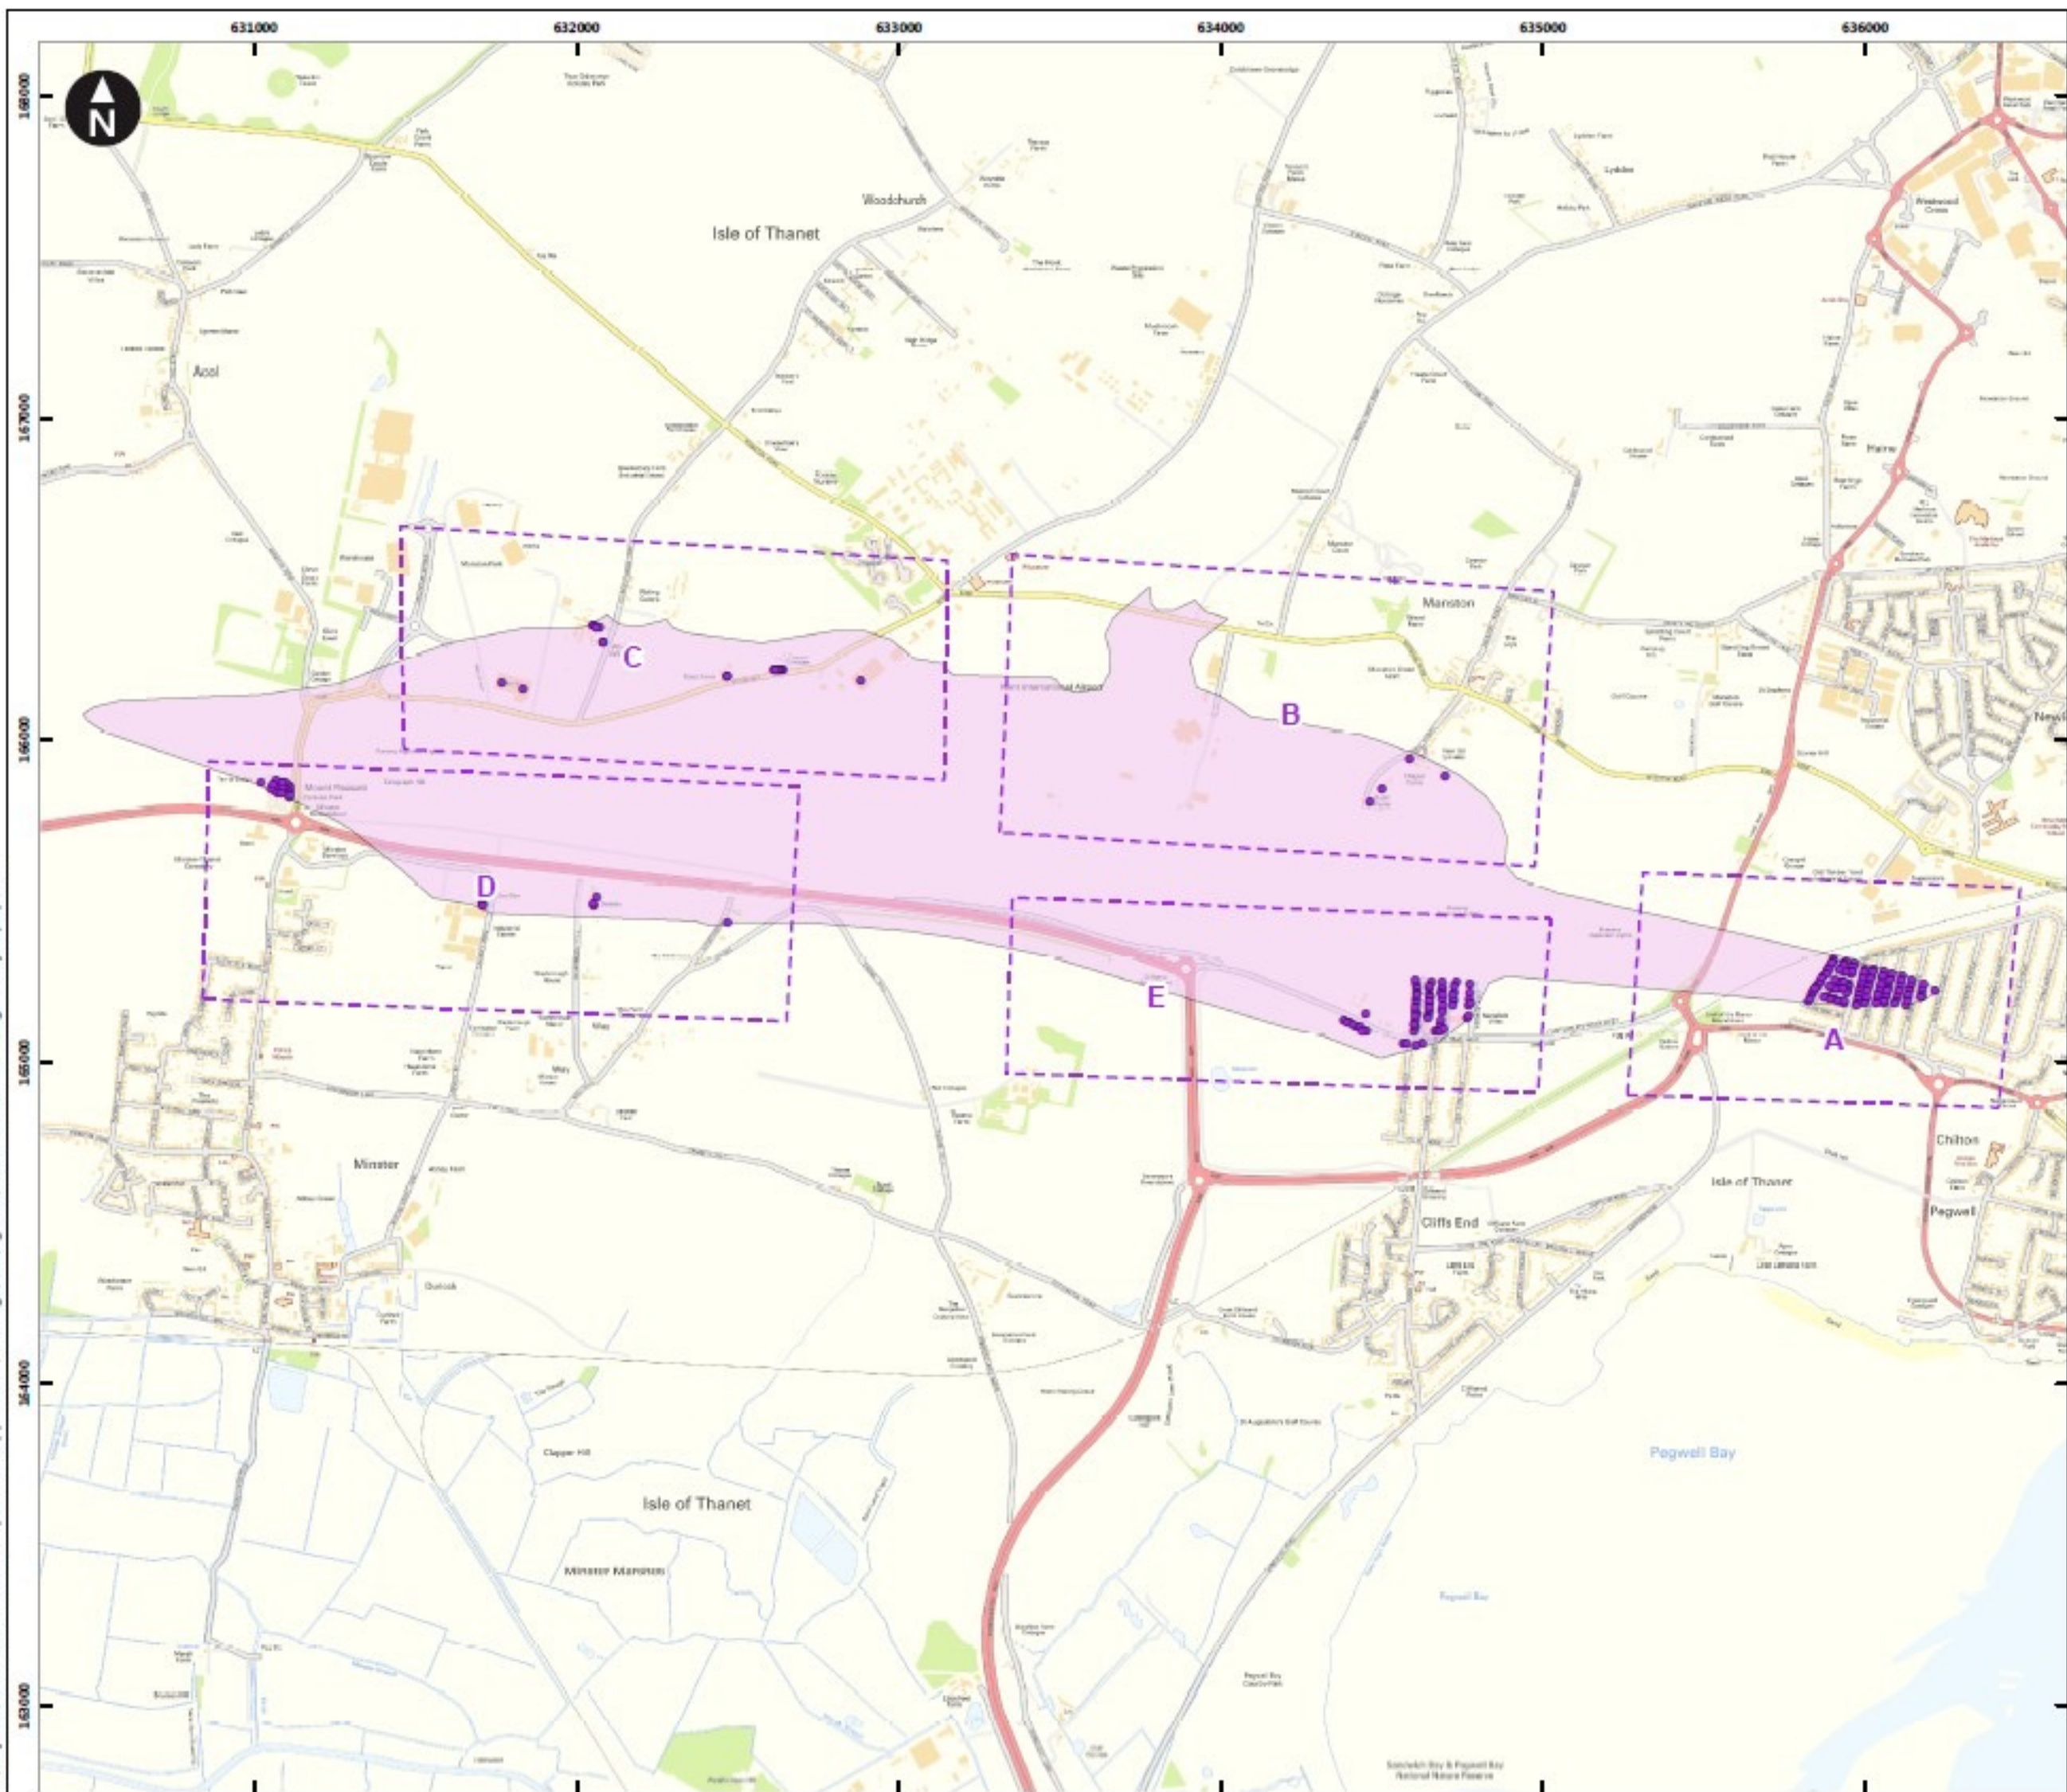

Your faithfully

Jodie Hudson
