Hi Richard

I am attempting to get more information from TDC about the proposed "recreational mitigation" to which Natural England proposed RSP sign up by way of mitigation for bird disturbance.

Would it be possible for Mr Broderick to ask an additional question of TDC and Natural England regarding this, so that we can have a more accurate picture of what, exactly, is proposed here?

In the meantime, I will need to submit my Deadline 8 submission regarding this issue with the requisite detail and ask the Examining Authority to please allow the submission to be amended and re-submitted, if need be, following receipt of the information from TDC.

Many thanks, best wishes, Deb Shotton
