I would like to make a comment on the alternative sites for rsp to look at ie prestwick is available now at a much cheaper cost.

Where are the public safety zones for ramsgate?

How come the overseas money still comes from Belize even though the office has moved to British virgin islands.

Where is the letters from HMRC confirming due diligence has been done.

Rsp stated over 15.2 million spent yet not supplied supporting evidence of this ie 10 million at best without showing where the money has come from.

Are rsp able to repay existing loans when due if the process goes to judicial review.

Where is the confirmation that 13 million is in the bank?

Securitas was mentioned at sandwich funding day where is the evidence that they are involved.

Thank you

Kenneth wraight
