---

I write again to protest against any intention to open Manston as a freight port. IS ANYBODY LISTENING and if so are they taking any notice whatsoever concerning the huge amount of like protests. People are moving to this area in their droves, and if that freight port is allowed to go ahead then all those people will be leaving the area in their droves too. Those planes are everybody's idea of a living hell.

Who thinks it is OKAY to pollute our air, ruin our health and send us all deaf. I run a small Airbnb and one of the requirements of my guests is a comfortable bed and above all PEACE AND QUIET. Well I can guarantee the comfortable bed but without the peace and quiet I will have to close my doors for ever. I would in that event be looking for compensation not just for monetary loss but destruction of my right of a good nights sleep, and consequential health problems.

Doreen Brown

I can only hope now that the someone who makes these decisions has the good sense to see that a freight port makes no sense
