Subject: Objection of the reopening of Manston airport.
Date: 14 June 2019 20:38:25

Dear Sirs,

I really don't know where to start!

I live on the Neathercourt estate in Ramsgate right under the flight path.

Like many on the estate I feel that we are being totally ignored.
No one I know has any idea what is going on.
Like the rest of the residents I have spoken to I am worried about what will happen
If this goes ahead. Is River Oak going to compulsory purchase our homes?
Will it be the whole estate or just the homes that are under the flight path.
If they are not going to compulsory purchase, are they going to give any
kind of compensation for noise.

I lived for most of my life in Hertfordshire. I saw Stanstead airport grow from
a small porter cabin for its only office. I saw it grow to what it is now. I saw
beautiful houses, part of old forests, whole villages pulled down
destroyed! all because they were too close to the airport.
Is this going to happen to our homes.

Thanet is just being to grow again. Film crews are using our beaches, streets and our beautiful historic houses.
Tourism is on the up for the first time in years.
Unusual birds are being seen on our mud flats and on our rivers.

I cannot for all the tea in China see why Manston has to be used when just 45 miles
away there is a fully operational airport. LYDD. It has hangers, customs, cargo planes
already using it.
With the government now saying that pollution must be reduced why do we need another
airport.

Thank you for reading this email.

You're sincerely

Janice Best. [REDACTED]
