Subject: TR020002 Manston DCO additional submission by Deb Shotton
Date: 20 June 2019 09:24:26

Good morning Richard, I hope you're well.

I

The link below is to an article in the Guardian concerning new research into noise disturbance and its deleterious effect on bird life, which I believe substantially supports my position in my earlier submissions.

I am sure Mr Broderick will be aware of it, but in case he is not can I ask you please to bring it to his attention.

https://www.theguardian.com/environment/2019/jun/20/twitter-storm-noise-pollution-creates-havoc-for-birds-study-shows?fbclid=IwAR3kyjiQpzZv0krpCQdreis_YMPmGG5jl0hM70oRok2VyHclQX7BWTdISfc

	<p>Twitter storm: noise pollution creates havoc for birds, study shows</p> <p>Human activities could be affecting reproduction and even normal social behaviour</p> <p>www.theguardian.com</p>
---	---

I know the Examining Authority is not keen on links, but I am currently out of the country and therefore not in full possession of the usual technical faculties.

If you would like me to ask a UK based correspondent to submit the entire article to you, please let me know.

Many thanks and with kind regards, Deb
